# SIMPLER ONE 'CLICK' AND YOU'RE SAFE

The Kensington ClickSafe<sup>™</sup> lock is designed to be the strongest and easiest-to-use lock available without compromising security.

A keyless locking motion makes the employees' role in protecting your business easy.

All they have to do is 'click' it on and your business is safe.

ClickSafe<sup>™</sup> Lock & Kensington Security Anchor

### CLICKSAFE™

# SETS A NEW STANDARD IN PHYSICAL COMPUTER SECURITY AND USABILITY.

#### **Locking Mechanism**

The lockhead simply 'clicks' onto the Kensington Security Anchor. The ClickSafe™ locking mechanism fastens perfectly to the anchor reducing leverage opportunities.

#### The Kensington Security Anchor

The Security Anchor is designed for a secure fit and simple locking, even when the anchor is in an awkward position. The Security Anchor attaches to the industry standard Kensington Security Slot in a matter of moments.

#### **Pivot & Rotation**

The lockhead pivots 180° and rotates a full 360° around the cable. The combined effect is one of complete flexibility and convenience.

# SAFER 'CLICK' IT TO KEEP IT

Kensington ClickSafe<sup>™</sup> locks are constructed from the strongest materials to deliver the best security available from a cable laptop lock.

A high carbon steel cable, all metal lockhead and rigorous real-world testing against lockpicking, corrosion, tampering and for a lifetime in excess of 10,000 key turns means that you can rest assured that ease of use is delivered without jeopardising integral strength.

Finite element analysis tests for strength against external forces such as pulling or torque.

### CLICKSAFE<sup>™</sup> ANATOMY

The ClickSafe<sup>™</sup> lock has been engineered to deliver strength and ease of use. Quality is ensured by deploying the same manufacturing processes as used for surgical instruments.

#### **Tamper Resistant**

An advanced rotating disc-locking mechanism with thousands of possible key combinations is used making ClickSafe<sup>™</sup> one of the most tamperresistant locks.

#### Kensington Security Logo

A visual deterrent to any would be thief. This lock is made by Kensington, the inventors of laptop security.

Xensington (a)

......

#### **Pivot & Rotation**

A rotating head and pivoting cable allow you to easily position and engage the lock.

#### Lockhead

Die cast metal housing resists attack and protects the locking mechanism.

#### **Kensington Security Anchor**

The tough metal injection moulded alloy anchor is perfectly shaped for the securest engagement with the ClickSafe™ locking mechanism.

#### **Precision Locking Mechanism**

The precision spring loaded locking mechanism is chrome plated to protect against corrosion and wear and protected by the lockhead's all metal body.

#### Advanced Cable Construction

A 7x7 configuration is specifically used to combat cutting attacks. A protective sheath provides further protection.

# SMARTER 'CLICK' TOGETHER — SAFE TOGETHER

Organizations invest in physical security to protect themselves against network attacks, the cost of lost productivity and broken reputations. A physical lock is an investment that pays back every time it's used.

Designed to fit busy daily routines, ClickSafe's<sup>™</sup> superior strength and ease of use makes your first line of defence even stronger. ClickSafe<sup>™</sup> locks have been designed to protect your business, they've been designed to be used.

Kensington 6

ClickSafe<sup>™</sup> A simpler, safer and smarter investment.

### IDEA: ONE 'CLICK' AND YOU'RE SAFE

#### Simpler

ClickSafe's™ keyless locking mechanism helps increase employee compliance. There's no excuse for laptops and data being left unprotected.

ClickSafe™ lockhead pivots 180° and rotates a full 360° around the cable for flexibility and convenience.

12.7mm low profile lockhead ensures compatibility with thin laptops.

#### Safer

Tamper-proof disk-style lock combined with superior materials provide nearimpenetrable protection.

Super-strong 5mm thick and 1500mm long steel cable provides the strongest physical security on the market.

#### Smarter

Protects your hardware by attaching itself to the Kensington Security Anchor which connects to the Kensington Security Slot found in 99% of laptops.

Online key code registration and replacement service.

Spare key included.

Key Different, Twin, Master Keyed and Single Keyed options available.
