# Safety instructions

**⚠ WARNING: Use of controls, adjustments, or procedures other than those specified in this documentation may result in exposure to shock, electrical hazards, and/or mechanical hazards.**

- Place the monitor on a solid surface and handle it carefully. The screen is fragile and can be damaged if dropped or hit sharply.
- Always be sure that your monitor is electrically rated to operate with the AC power available in your location.
- Keep the monitor in room temperature. Excessive cold or hot conditions can have an adverse effect on the liquid crystal of the display.
- Do not subject the monitor to severe vibration or high impact conditions. For example, do not place the monitor inside a car trunk.
- Unplug the monitor when it is going to be left unused for an extended period of time.
- To avoid electric shock, do not attempt to remove any cover or touch the inside of the monitor.

For information on safety instructions, see the Safety, Environmental, and Regulatory Information (SERI).

# About your monitor

## Package contents

Your monitor ships with the components shown in the table below. If any component is missing, contact Dell. For more information, see [Contact Dell](#).

 **NOTE: Some components may be optional and may not ship with your monitor. Some features may not be available in certain countries.**

	Display
	Stand riser
	Stand base
	Power cable (varies by country)
	DisplayPort cable (DisplayPort to DisplayPort)
	Super Speed USB 3.2 Gen1 A to B upstream cable (Enables USB Ports on the monitor)

	<p>HDMI cable</p>
	<p>Thunderbolt™ 4 (USB Type-C) Active Cable</p>
	<ul style="list-style-type: none"> <li>• Quick Setup Guide</li> <li>• Safety, Environmental, and Regulatory Information</li> <li>• Factory Calibration Report</li> </ul>

## Product features

The **Dell UltraSharp U4021QW** Curved monitor has an active matrix, Thin-Film Transistor (TFT), Liquid Crystal Display (LCD), and LED backlight. The monitor features include:

- 100.859 cm (39.7 in.) active area display (Measured diagonally) 5120 x 2160 (21:9) resolution, plus full-screen support for lower resolutions.
- Wide viewing angles with 98% DCI-P3.
- Tilt, swivel and vertical extension adjustment capabilities.
- Built-in speakers (2 x 9 W).
- Removable pedestal stand and Video Electronics Standards Association (VESA™) 100 mm mounting holes for flexible mounting solutions.
- Ultra-thin bezel minimizes the bezel gap in multi-monitor usage, enabling easier set up with an elegant viewing experience.
- Extensive digital connectivity with HDMI and DP helps future-proof your monitor.
- Single Thunderbolt™ 3 (90 W) to supply power to compatible notebook while receiving video signal.
- Thunderbolt™ 3 (90 W) and RJ45 ports enable a single-cable, network-connected experience.
- Plug and play capability if supported by your computer.
- On-Screen Display (OSD) adjustments for ease of set-up and screen optimization.
- Power and OSD buttons lock.
- Security lock slot.
- ≤ 0.3 W in Standby Mode.
- Supports both Picture by Picture (PBP) / Picture in Picture (PIP) Select Mode.
- Allow user to switch USB KVM function in PBP mode.
- The monitor adopts Flicker-Free technology, which clears the eye visible flicker, brings comfort viewing experience and preventing users suffer from eye strain and fatigue.
- Premium Panel Exchange for peace of mind.
- Optimize eye comfort with a flicker-free screen minimizes hazard blue light emission.
- The Monitor use Low Blue Light panel and compliance with TUV Rheinland (Hardware Solution) at factory reset/default setting model.
- Decreases the level of hazard blue light emitted from the screen to make viewing more comfortable for your eyes.

**⚠ WARNING: The possible long-term effects of blue light emission from the monitor may cause damage to the eyes, including eye fatigue or digital eye strain.**

# Identifying parts and controls

## Front view

Label	Description	Use
1	Power LED indicator	Solid white light indicates the monitor is turned on and functioning normally. Blinking white light indicates the monitor is in Standby Mode.

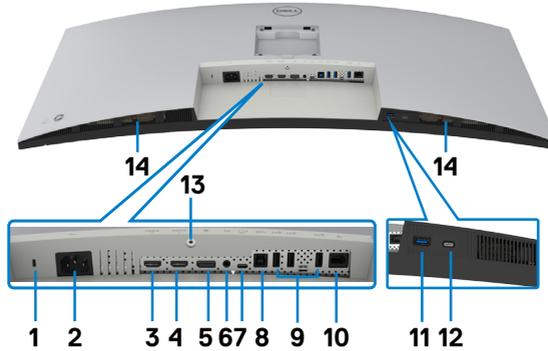

## Back view

Label	Description	Use
1	VESA mounting holes (100 mm x 100 mm-behind attached VESA cover)	Wall mount monitor using VESA-compatible wall mount kit (100 mm x 100 mm).
2	Regulatory label	Lists the regulatory approvals.
3	Stand release button	Releases stand from the monitor.
4	Power On/Off button	To turn the monitor on or off.
5	Joystick	Use it to control the OSD menu. For more information, see <a href="#">Operating the Monitor</a> .
6	Mac address, Barcode, serial number, and Service Tag label	Refer to this label if you need to contact Dell for technical support. The Service Tag is a unique alphanumeric identifier that enables Dell service technicians to identify the hardware components in your computer and access warranty information.
7	Cable-management slot	Use to organize cables by inserting them through the slot.

## Bottom view

Label	Description	Use
1	Security lock slot	Secures monitor with security cable lock (sold separately).
2	Power connector	Connect the power cable.
3	HDMI 1 port	Connect your computer with the HDMI cable.
4	HDMI 2 port	Connect your computer with the HDMI cable.
5	DisplayPort in	Connect your computer with the DisplayPort cable.
6	Audio line-out port	Connect speakers to playback audio through HDMI or DisplayPort audio channels. Only two-channel audio is supported. <b>NOTE:</b> The audio line-out port does not support headphones.
7	Thunderbolt™ 3 (90 W)/ DisplayPort	Connect to your computer using the Thunderbolt™ 4 (USB Type-C) active cable. The Thunderbolt™ 3 (90 W) port offer the fastest transfer rate and the alternate mode with DP 1.4 support the maximum resolution of 5120 x 2160 at 60 Hz PD 20 V/4.5 A, 15 V/3 A, 9 V/3 A, 5 V/3 A. <b>NOTE:</b> USB Type-C is not supported on Windows versions that are prior to Windows 10.
8	USB Type-B upstream port	Connect the USB cable that comes with your monitor to the computer. Once this cable is connected, you can use the USB downstream connectors on the monitor.
9,11	Super Speed USB 10 Gbps (USB 3.2 Gen2) (4)	Connect your USB device. You can use these ports only after you have connected the USB cable from the computer to the monitor. Port with  battery icon supports Battery Charging Rev. 1.2.

<b>10</b>	RJ-45 connector	Connect Internet. You can surf Internet via RJ45 only after you have connected the USB cable (Type-A to Type-B or Type-C to Type-C) from the computer to the monitor.
<b>12</b>	Super Speed USB 3.2 Gen2 10Gbps Type-C downstream port	Port with  icon supports 5 V/ 3 A. Connect your USB-C device. You can use these ports only after you have connected the USB cable (Type-A to Type-B or Type-C to Type-C) from the computer to the monitor.
<b>13</b>	Stand lock	Lock the stand to the monitor using a M3 x 8 mm screw (screw not included).
<b>14</b>	Built-in speakers	To output the sound from audio input.

## Monitor specifications

Screen type	Active matrix - TFT LCD
Panel Type	In-plane switching Technology
Aspect ratio	21:9
Viewable image dimensions	
Diagonal	1008.59 mm (39.7 in.)
Active Area	
Horizontal	929.28 mm (36.59 in.)
Vertical	392.04 mm (15.44 in.)
Area	364236.5 mm <sup>2</sup> (564.95 in. <sup>2</sup> )
Pixel pitch	0.1815 mm x 0.1815 mm
Pixel per inch (PPI)	140
Viewing angle	
Horizontal	178° (typical)
Vertical	178° (typical)
Brightness	300 cd/m <sup>2</sup> (typical)
Contrast ratio	1000 to 1 (typical)
Curvature	2500R
Display screen coating	Anti-glare treatment of the front polarizer (3H) hard coating
Backlight	LED
Color depth	1.07 Billion colors

Color gamut*	98% (typical) DCI-P3
Connectivity	<ul style="list-style-type: none"> <li>• 1 x DP1.4 (HDCP 2.2) (10-bit color @ 60 Hz)</li> <li>• 2 x HDMI 2.0 (HDCP 2.2) (10-bit @ 30 Hz)</li> <li>• 1 x Thunderbolt™ 3 (90 W) (Alternate mode with DisplayPort 1.4, Super Speed USB 3.2 Gen2 (10 Gbps) upstream port, Power Delivery PD up to 90 W)</li> <li>• 1 x USB Type-B upstream port</li> <li>• 1 x USB Type -C downstream (15 W), Super Speed USB 3.2 Gen2 (10 Gbps)</li> <li>• 4 x Super speed USB Type-A 10 Gbps (USB 3.2 Gen2)</li> <li>• 1 x Super speed USB Type-A 3.2 Gen2 with BC1.2 charging capability at 2 A (max)</li> <li>• 1 x Analog 2.0 audio line out (3.5 mm jack)</li> <li>• 1 x RJ45</li> </ul>
Border width (edge of monitor to active area)	
Top	11.3 mm
Left/Right	11.3 mm
Bottom	15.8 mm
Adjustability	
Height adjustable stand	120 mm
Tilt	-5° to 21°
Swivel	-30° to 30°
Cable management	Yes
Dell Display Manager (DDM) Compatibility	Easy Arrange and other key features
Security	Security lock slot (cable lock sold separately)

\* At panel native only, under Custom Mode preset.

### Resolution specifications

Horizontal scan range	27 kHz to 133.286 kHz
Vertical scan range	24 Hz to 86 Hz
Maximum preset resolution	5120 x 2160 at 60 Hz
Video display capabilities (HDMI & DP & Thunderbolt™ 3 (90 W) alternate mode)	480p, 560p, 720p, 1080i, 1080p

## Preset display modes

Display mode	Horizontal frequency (kHz)	Vertical frequency (Hz)	Pixel clock (MHz)	Sync polarity (Horizontal/Vertical)
VESA, 720 x 400	31.50	70.00	28.30	-/+
VESA, 640 x 480	31.50	60.00	25.20	-/-
VESA, 640 x 480	37.50	75.00	31.50	-/-
VESA, 800 x 600	37.90	60.30	40.00	+/+
VESA, 800 x 600	46.90	75.00	49.50	+/+
VESA, 1024 x 768	48.40	60.00	65.00	-/-
VESA, 1024 x 768	60.00	75.00	78.80	+/+
VESA, 1152 x 864	67.50	75.00	108.00	+/+
VESA, 1280 x 800	49.70	60.00	83.50	+/+
VESA, 1280 x 1024	64.00	60.00	108.00	+/+
VESA, 1280 x 1024	80.00	75.00	135.00	+/+
VESA, 1600 x 1200	75.00	60.00	162.00	+/+
VESA, 1680 x 1050	65.29	60.00	146.25	-/+

VESA, 1920 x 1200	74.04	60.00	154.00	+/-
VESA, 2048 x 1152	70.99	60.00	156.75	+/-
VESA, 2048 x 1280	78.92	60.00	174.25	+/-
VESA, 2560 x 1080	66.64	60.00	181.25	+/-
VESA, 1024 x 2160	133.24	60.00	157.75	+/-
VESA, 1280 x 2160	133.15	60.00	191.75	+/-
VESA, 2560 x 2160	133.27	60.00	362.50	+/-
VESA, 3840 x 2160	65.58	30.00	262.75	+/-
VESA, 3840 x 2160	135.00	60.00	594.00	+/-
VESA, 3840 x 2160	133.31	60.00	533.25	+/-
VESA, 4096 x 2160	65.67	30.00	279.50	+/-
VESA, 4096 x 2160	133.28	60.00	567.25	+/-
VESA, 5120 x 2160	65.72	30.00	347.00	+/-
VESA, 5120 x 2160	133.27	60.00	703.75	+/-

## Electrical specifications

Video input signals	<ul style="list-style-type: none"> <li>Digital video signal for each differential line Per differential line at 100 ohm impedance</li> <li>DP/HDMI/Thunderbolt™ 3 (90 W) signal input support</li> </ul>
Input voltage/ frequency/current	100-240 VAC / 50 or 60 Hz ± 3 Hz / 2.8 A (maximum)
Inrush current	120 V: 42 A (Max.) 240 V: 80 A (Max.)
Power consumption	0.3 W (Off Mode) <sup>1</sup> 0.3 W (Standby Mode) <sup>1</sup> 41.3 W (On Mode) <sup>1</sup> 240 W (Max) <sup>2</sup> 44.81 W (P <sub>on</sub> ) <sup>3</sup> 140.86 kWh (TEC) <sup>3</sup>

<sup>1</sup> As defined in EU 2019/2021 and EU 2019/2013.

<sup>2</sup> Max brightness and contrast setting with maximum power loading on all USB ports.

<sup>3</sup> P<sub>on</sub>: Power consumption of On Mode as defined in Energy Star 8.0 version.

TEC: Total energy consumption in kWh as defined in Energy Star 8.0 version.

This document is informational only and reflects laboratory performance. Your product may perform differently, depending on the software, components and peripherals you ordered and shall have no obligation to update such information. Accordingly, the customer should not rely upon this information in making decisions about electrical tolerances or otherwise. No warranty as to accuracy or completeness is expressed or implied.

 **NOTE: This monitor is ENERGY STAR certified.**

This product qualifies for ENERGY STAR in the factory default settings which can be restored by “Factory Reset” function in the OSD menu. Changing the factory default settings or enabling other features may increase power consumption that could exceed the ENERGY STAR specified limit.

## Speaker Specifications

Speaker rated power	2 x 9 W
Frequency Response	100 Hz - 20 kHz
Impedance	8 ohm

## Physical characteristics

Connector type	<ul style="list-style-type: none"><li>• DP connector</li><li>• HDMI connector</li><li>• Thunderbolt™ 3 (90 W) connector</li><li>• Audio line-out</li><li>• RJ45 connector</li><li>• USB Type-C downstream connector x 1 (Port with  icon supports 5 V/3 A)</li><li>• Super speed USB Type-A 3.2 Gen2 downstream port connector x 4 (Port with  battery icon supports BC 1.2.)</li></ul>
Signal cable type	<ul style="list-style-type: none"><li>• DP to DP 1.8 m cable</li><li>• HDMI 1.8 m cable</li><li>• Super Speed USB 3.2 Gen1 (A to B) 1.8 m cable</li><li>• Thunderbolt™ 4 (USB Type-C) active 1.5 m cable</li></ul>
Dimensions (with stand)	
Height (extended)	577.3 mm (22.73 in.)
Height (compressed)	457.8 mm (18.02 in.)
Width	946.6 mm (37.27 in.)
Depth	248.0 mm (9.76 in.)
Dimensions (without stand)	
Height	419.1 mm (16.50 in.)
Width	946.6 mm (37.27 in.)
Depth	59.6 mm (2.35 in.)
Stand dimensions	
Height (extended)	438.3 mm (17.26 in.)
Height (compressed)	391.5 mm (15.41 in.)

Width	334.5 mm (13.17 in.)
Depth	248.0 mm (9.76 in.)
Weight	
Weight with packaging	21.6 kg (47.62 lb)
Weight with stand assembly and cables	13.8 kg (30.42 lb)
Weight without stand assembly (For wall mount or VESA mount considerations - no cables)	9.5 kg (20.94 lb)
Weight of stand assembly	4.3 kg (9.48 lb)

## Environmental characteristics

Compliant Standards	
<ul style="list-style-type: none"> <li>• ENERGY STAR certified Monitor.</li> <li>• EPEAT registered where applicable. EPEAT registration varies by country. See <a href="http://www.epeat.net">www.epeat.net</a> for registration status by country.</li> <li>• TCO Certified Display.</li> <li>• RoHS Compliant.</li> <li>• BFR/PVC Free monitor (excluding external cables).</li> <li>• Meets NFPA 99 leakage current requirements.</li> <li>• Arsenic-Free glass and Mercury-Free for the panel only.</li> </ul>	
Temperature	
Operating	0°C to 40°C (32°F to 104°F)
Non-operating	-20°C to 60°C (-4°F to 140°F)
Humidity	
Operating	10% to 80% (non-condensing)
Non-operating	5% to 90% (non-condensing)
Altitude	
Operating	5,000 m (16,404 ft) (maximum)
Non-operating	12,192 m (40,000 ft) (maximum)
Thermal dissipation	818.91 BTU/hour (maximum) 140.92 BTU/hour (On Mode)

## Video - Bandwidth

Host	Video Cable	Resolution
USB-C (Alt Mode DP1.2)	USB-C Gen1 Cable	5120 x 2160 @ 30 Hz
	Thunderbolt™ 3 Active Cable (40G)	
	Thunderbolt™ 4 Active Cable (40G)	
USB-C (Alt Mode DP1.4)	USB-C Gen2 Cable	5120 x 2160 @ 60 Hz
	Thunderbolt™ 3 Active Cable (40G)	5120 x 2160 @ 60 Hz
	Thunderbolt™ 4 Active Cable (40G)	5120 x 2160 @ 60 Hz
TBT3 (Alt Mode DP1.2)	Thunderbolt™ 3 Active Cable (40G)	5120 x 2160 @ 30 Hz
	Thunderbolt™ 4 Active Cable (40G)	
TBT3 (Alt Mode DP1.4)	Thunderbolt™ 3 Active Cable (40G)	5120 x 2160 @ 60 Hz
	Thunderbolt™ 4 Active Cable (40G)	
HDMI 2.0	HDMI 2.0 cable	5120 x 2160 @ 30 Hz
HDMI 1.4	HDMI 2.0 cable	3840 x 2160 @ 30 Hz

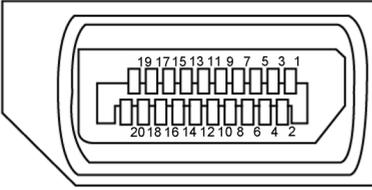

## USB - Bandwidth

Host	USB Upstream Cable	USB Device connected to USB-A or C Downstream
USB-A (5 Gbps)	A-C Cable	Supported, USB 2.0/3.2 Gen1
	A-B Cable	
USB-C (5 Gbps Data Only)	USB-C Gen1/2 Cable	Supported, USB 2.0/3.2 Gen1
	Thunderbolt™ 4 Active Cable (40G)	
	Thunderbolt™ 3 Active Cable (40G)	Supported, USB 2.0 only
USB-C (Alt Mode DP1.2)	USB-C Gen1/2 Cable	Supported, USB 2.0 only
	Thunderbolt™ 3 Active Cable (40G)	
	Thunderbolt™ 4 Active Cable (40G)	
USB-C (Alt Mode DP1.4)	USB-C Gen1/2 Cable	Supported, USB 2.0 only
	Thunderbolt™ 3 Active Cable (40G)	
	Thunderbolt™ 4 Active Cable (40G)	
TBT3	Thunderbolt™ 3 Active Cable (40G)	Supported USB3.2 Gen2
	Thunderbolt™ 4 Active Cable (40G)

## Universal Serial Bus (USB)

This section gives you information about the USB ports available on your monitor.

 **NOTE:** Up to 2 A on USB downstream port (port with  battery icon) with BC 1.2 compliance devices; up to 1.0 A on the other 2 USB downstream ports; Up to 3 A on USB downstream port (port with  icon) with 5 V/3 A compliance devices.

Your computer has the following USB ports:

- 5 downstream - 3 at bottom, 2 at quick access
- 1 upstream

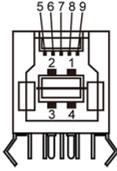

Power Charging Port - the ports with  battery icon supports fast current charging capability if the device is BC 1.2 compatible. The USB Type-C downstream port with  icon supports fast current charging capability if the device is 5V/3A compatible.

 **NOTE:** The monitor's USB ports work only when the monitor is on or in the standby mode. In standby mode, if the USB cable (Type-C to Type-C) is plugged in, the USB ports can work normally. Otherwise, follow the OSD setting of USB, if the setting is "On in Standby Mode" then USB work normally, otherwise USB is disabled. If you turn off the monitor and then turn it on, the attached peripherals may take a few seconds to resume normal functionality.

Transfer speed	Data rate	Maximum power consumption (each port)
Super Speed USB 3.2 Gen2	10 Gbps	4.5 W
Super Speed USB 3.2 Gen1	5 Gbps	4.5 W
Hi-Speed	480 Mbps	2.5 W
Full speed	12 Mbps	2.5 W

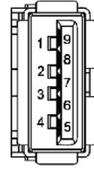

## USB upstream port

Pin number	Signal name
1	VBUS
2	D-
3	D+

5	StdA_SSRX-
6	StdA_SSRX+
7	GND_DRAIN
8	StdA_SSTX-
9	StdA_SSTX+
Shell	Shield

## RJ45 port (connector side)

Pin	Signal	Pin	Signal
1	TD1 +	8	TD3 -
2	TD1 -	9	TD4 +
3	TD2 +	10	TD4 -
4	TD2 -	11	GREEN_OR-ANGE
5	CT	12	GREEN_OR-ANGE
6	CT	13	GREEN
7	TD3 +	14	GREEN

## Driver installation

Install the Realtek USB GBE Ethernet Controller Driver available for your system. This is available for download at [www.dell.com/support](http://www.dell.com/support) under the “Driver and download” section.

Network (RJ45) data rate via USB-C max speed is 1000 Mbps.

**NOTE:** This LAN port is 1000Base-T IEEE 802.3az compliant, supporting Mac Address (Printed on model label) Pass-thru, Wake-on-LAN (WOL) from standby mode (S3 only) and PXE Boot function, these 3 features depend on BIOS setting and OS version.

RJ45 Connector LED status:

LED	Color	Description
Right LED	Amber or Green	Speed indicator: <ul style="list-style-type: none"><li>• Amber On - 1000 Mbps</li><li>• Green On - 100 Mbps</li><li>• Off - 10 Mbps</li></ul>
Left LED	Green	Link / Activity indicator: <ul style="list-style-type: none"><li>• Blinking - Activity on the port.</li><li>• Green On - Link is being established.</li><li>• Off - Link is not established.</li></ul>

 **NOTE:** RJ45 cable is non in-box standard accessory.

## Plug-and-Play

You can install the monitor in any Plug-and-Play-compatible system. The monitor automatically provides the computer system with its extended display identification data (EDID) using display data channel (DDC) protocols so the computer can configure itself and optimize the monitor settings. Most monitor installations are automatic; you can select different settings if desired. For more information about changing the monitor settings, see [Operating the Monitor](#).

## LCD monitor quality and pixel policy

During the LCD monitor manufacturing process, it is not uncommon for one or more pixels to become fixed in an unchanging state which are hard to see and do not affect the display quality or usability. For more information on LCD Monitor Pixel Policy, see Dell support site at: [www.dell.com/pixelguidelines](http://www.dell.com/pixelguidelines).

# Ergonomics

**△ CAUTION: Improper or prolonged usage of keyboard may result in injury.**

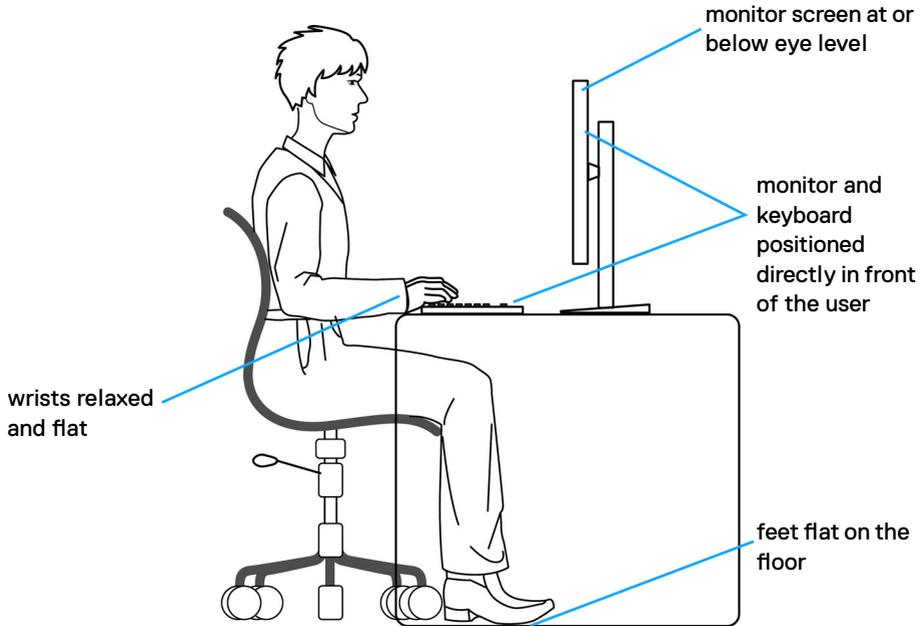

**△ CAUTION: Viewing the monitor screen for extended periods of time may result in eye strain.**

For comfort and efficiency, observe the following guidelines when setting up and using your computer workstation:

- Position your computer so that the monitor and keyboard are directly in front of you as you work. Special shelves are commercially available to help you correctly position your keyboard.
- To reduce the risk of eye strain and neck/arm/back/shoulder pain from using the monitor for long periods of time, we suggest you to:
  1. Set the distance of the screen between 20 to 28 in. (50 - 70 cm) from your eyes.
  2. Blink frequently to moisten your eyes or wet your eyes with water after prolonged usage of the monitor.
  3. Take regular and frequent breaks for 20 minutes every two hours.
  4. Look away from your monitor and gaze at a distant object at 20 feet away for at least 20 seconds during the breaks.
  5. Perform stretches to relieve tension in the neck, arm, back, and shoulders during the breaks.
- Make sure that the monitor screen is at eye level or slightly lower when you are sitting in front of the monitor.
- Adjust the tilt of the monitor, its contrast, and brightness settings.
- Adjust the ambient lighting around you (such as overhead lights, desk lamps, and the curtains or blinds on nearby windows) to minimize reflections and glare on the monitor screen.
- Use a chair that provides good lower-back support.
- Keep your forearms horizontal with your wrists in a neutral, comfortable position while using the keyboard or mouse.
- Always leave space to rest your hands while using the keyboard or mouse.
- Let your upper arms rest naturally on both sides.
- Ensure that your feet are resting flat on the floor.
- When sitting, make sure that the weight of your legs is on your feet and not on the front portion of your seat. Adjust your chair's height or use a footrest if necessary to maintain a proper posture.
- Vary your work activities. Try to organize your work so that you do not have to sit and work for extended periods of time. Try to stand or get up and walk around at regular intervals.

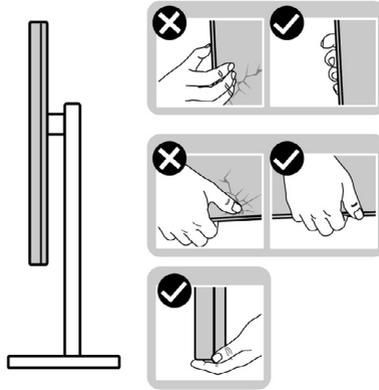

- Keep the area under your desk clear of obstructions and cables or power cords that may interfere with comfortable seating or present a potential trip hazard.

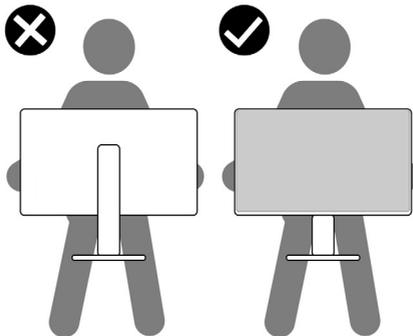

## Handling and moving your display

To ensure the monitor is handled safely when lifting or moving it, follow the guidelines mentioned below:

- Before moving or lifting the monitor, turn off your computer and the monitor.
- Disconnect all cables from the monitor.
- Place the monitor in the original box with the original packing materials.
- Hold the bottom edge and the side of the monitor firmly without applying excessive pressure when lifting or moving the monitor.

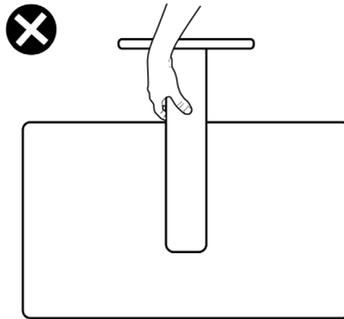

- When lifting or moving the monitor, ensure the screen is facing away from you and do not press on the display area to avoid any scratches or damage.

- When transporting the monitor, avoid any sudden shock or vibration to it.

- When lifting or moving the monitor, do not turn the monitor upside down while holding the stand base or stand riser. This may result in accidental damage to the monitor or cause personal injury.

## Maintenance guidelines

### Cleaning your monitor

**⚠ WARNING:** Before cleaning the monitor, unplug the monitor power cable from the electrical outlet.

**⚠ CAUTION:** Read and follow the [Safety Instructions](#) before cleaning the monitor.

For best practices, follow these instructions in the list below while unpacking, cleaning, or handling your monitor:

- To clean your anti-static screen, lightly dampen a soft, clean cloth with water. If possible, use a special screen-cleaning tissue or solution suitable for the anti-static coating. Do not use benzene, thinner, ammonia, abrasive cleaners, or compressed air.
- Use a lightly-dampened, soft cloth to clean the monitor. Avoid using detergent of any kind as some detergents leave a milky film on the monitor.
- If you notice white powder when you unpack your monitor, wipe it off with a cloth.
- Handle your monitor with care as a darker-colored monitor may get scratched and show white scuff marks more than a lighter-colored monitor.
- To help maintain the best image quality on your monitor, use a dynamically changing screen saver and turn off your monitor when not in use.

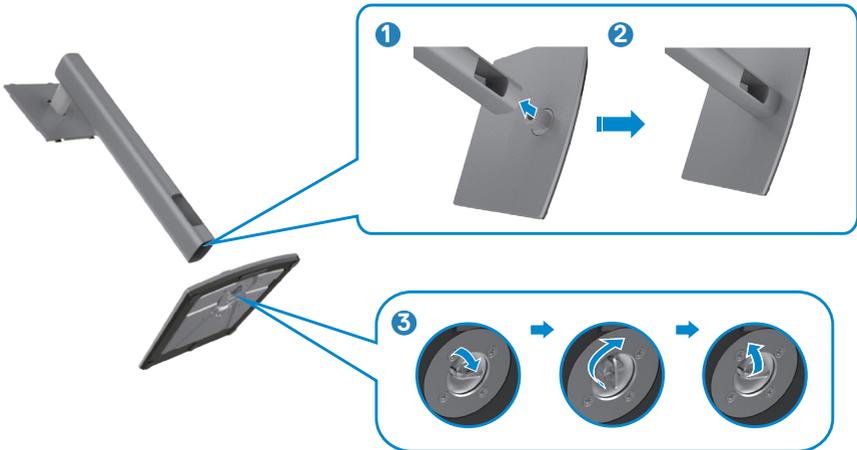

# Setting up the monitor

## Connecting the stand

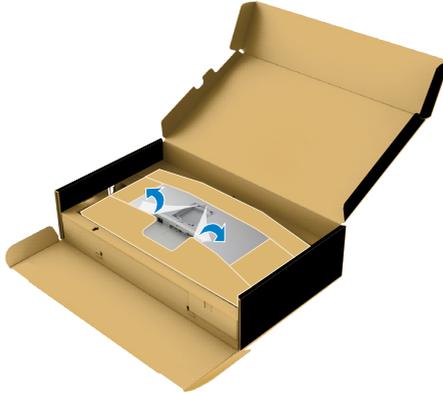

-  **NOTE:** The stand riser and stand base are detached when the monitor is shipped from the factory.
-  **NOTE:** The following instructions are applicable only for the stand that was shipped with your monitor. If you are connecting a stand that you purchased from any other source, follow the set up instructions that were included with the stand.

### To attach the monitor stand:

1. Align and place the stand riser on the stand base.
2. Open the screw handle at the bottom of the stand base and turn it clockwise to secure the stand assembly.
3. Close the screw handle.

4. Open the protective cover on the monitor to access the VESA slot on the monitor.

5. Slide the tabs on the stand riser into the slots on the display back cover and lower the stand assembly to snap it into place.

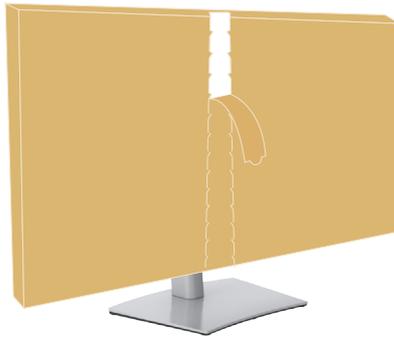

6. Hold the stand riser and lift the monitor carefully, then place it on a flat surface.

**NOTE:** Hold the stand riser firmly when lifting the monitor to avoid any accidental damage.

7. Tear the paper cushion from the monitor.

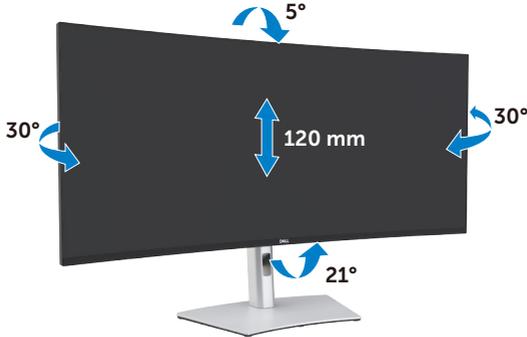

## Using the tilt, swivel, and vertical extension

**NOTE:** The following instructions are applicable only for the stand that was shipped with your monitor. If you are connecting a stand that you purchased from any other source, follow the set up instructions that were included with the stand.

### Tilt, swivel and vertical extension

With the stand attached to the monitor, you can tilt the monitor for the most comfortable viewing angle.

**NOTE:** The stand is detached when the monitor is shipped from the factory.

# Connecting your monitor

**⚠ WARNING:** Before you begin any of the procedures in this section, follow the [Safety Instructions](#).

## To connect your monitor to the computer:

1. Turn off your computer.
2. Connect the DisplayPort or HDMI cable, and the Thunderbolt™ 4 (USB Type-C) active cable from your monitor to the computer.
3. Turn on your monitor.
4. Select the correct input source from the OSD Menu on your monitor and then turn on your computer.

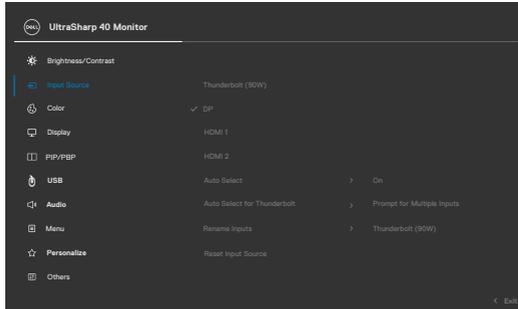

**📌 NOTE:** U4021QW default setting is DisplayPort 1.4. A DisplayPort 1.1 Graphic card may not display normally. Please refer to [“product specific problems – No image when using Thunderbolt™ connection to the PC”](#) to change default setting.

## Connecting the HDMI cable

## Switch to lower / higher primary resolution

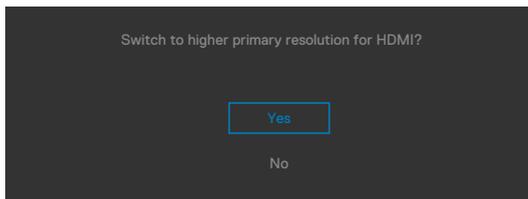

1. Press the joystick button to launch the OSD main menu.
2. Move the joystick to select **input source**.

3. Move the joystick up or down to select **HDMI 1/HDMI 2**, press and hold the joystick 8 Sec, the following message will appear:

4. Select **Yes** to switch from HDMI 2.0 (default) to HDMI 1.4 (or select No to cancel this operation).
5. Repeat steps 3 and 4 again to switch from HDMI 1.4 to HDMI 2.0.

## Connecting the DP cable

## Connecting the USB cable

## Connecting the Thunderbolt™ 4 (USB Type-C) active cable

The Thunderbolt™ 3 (90 W) port on your monitor:

- Can be used as Thunderbolt™ 3 or DisplayPort 1.4, alternatively.
- Supports USB Power Delivery (PD), with profiles up to 90 W.

**NOTE: Regardless of the power requirement/actual power consumption of your laptop, or the remaining power runtime in your battery, the Dell U4021QW monitor is designed to supply power delivery of up to 90 W to your laptop.**

Rated power (on laptops that have Thunderbolt™ 3 (90 W) with PowerDelivery)	Maximum charging power
45 W	45 W
65 W	65 W
90 W	90 W
130 W	Not supported

## Connecting the monitor for RJ45 Cable (Optional)

## Organizing your cables

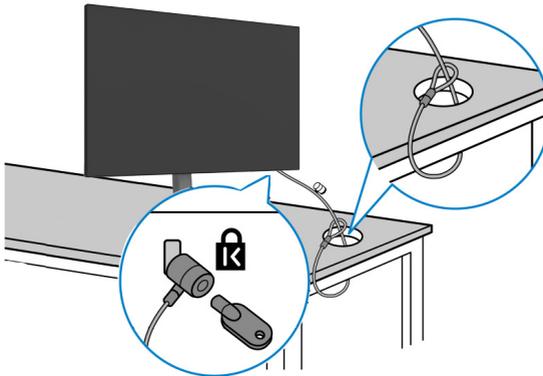

After attaching all necessary cables to your monitor and computer, (see [Connecting Your Monitor](#) for cable attachment) organize all cables as shown above.

## Securing your monitor using Kensington lock (optional)

The security lock slot is located at the bottom of the monitor. (See [Security lock slot](#))

For more information on using the Kensington lock (purchased separately), see the documentation that is shipped with the lock.

Secure your monitor to a table using the Kensington security lock.

**NOTE:** The image is for the purpose of illustration only. Appearance of the lock may vary.

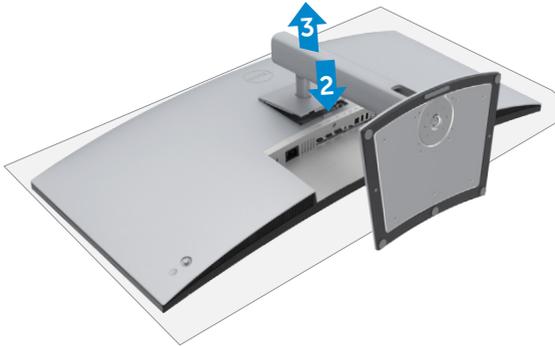

## Removing the monitor stand

**CAUTION:** To prevent scratches on the LCD screen when removing the stand, ensure that the monitor is placed on a soft, clean surface.

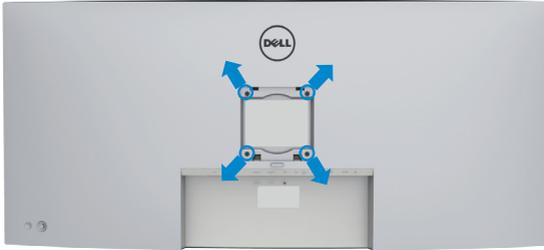

**NOTE:** The following instructions are applicable only for the stand that was shipped with your monitor. If you are connecting a stand that you purchased from any other source, follow the set up instructions that were included with the stand.

### To remove the stand:

1. Place the monitor on a soft cloth or cushion.
2. Press and hold the stand-release button.
3. Lift the stand up and away from the monitor.

## Wall mounting (Optional)

 **NOTE: Use M4 x 10 mm screws to connect the monitor to the wall-mounting kit.**

Refer to the instructions that come with the VESA-compatible wall mounting kit.

1. Place the monitor on a soft cloth or cushion on a stable flat table.
2. Remove the stand.
3. Use a Phillips crosshead screwdriver to remove the four screws securing the plastic cover.
4. Attach the mounting bracket from the wall mounting kit to the monitor.
5. Mount the monitor on the wall as instructed in the documentation that shipped with the wall-mounting kit.

 **NOTE: For use only with UL or CSA or GS-listed wall mount bracket with minimum weight/load bearing capacity of 38 kg (83.76 lb).**

# Operating the monitor

## Power on the monitor

Press the  button to turn on the monitor.

## Using the joystick control

Use the joystick control on the rear of the monitor to make OSD adjustments.

1. Press the joystick button to launch the OSD main menu.
2. Move the joystick up/down/left/right to toggle between options.
3. Press the joystick button again to confirm the settings and exit.

---

### Joystick Description

---

- When the OSD menu is on, press the button to confirm the selection or save the settings.
- When the OSD menu is off, press the button to launch the OSD main menu. See [Accessing the menu system](#).

- For 2-way (right and left) directional navigation.
- Move right to enter the submenu.
- Move left to exit from the submenu.
- Increases (right) or decreases (left) the parameters of selected menu item.

- For 2-way (up and down) directional navigation.
  - Toggles between the menu items.
  - Increases (up) or decreases (down) the parameters of selected menu item.
- 

Use the joystick control on the rear of the monitor to adjust the display settings. As you use the button to adjust the settings, an OSD shows the numeric values of each feature as they change.

Options	Description
<p>1</p>  <p><b>Shortcut key: Menu</b></p>	<p>Use this <b>Menu</b> button to launch the on-screen display (OSD) and select the OSD menu.</p>
<p>2</p>  <p><b>Shortcut key: Volume</b></p>	<p>Use this button to adjust the volume of the built-in speakers.</p>
<p>3</p>  <p><b>Shortcut key: Input Source</b></p>	<p>Use this button to choose from a list of <b>Input Source</b>.</p>
<p>4</p>  <p><b>Shortcut key: Preset Modes</b></p>	<p>Use this button to choose from a list of <b>preset color modes</b>.</p>
<p>5</p>  <p><b>Shortcut key: Brightness/Contrast</b></p>	<p>To directly access the <b>Brightness/Contrast</b> adjustment sliders.</p>
<p>6</p>  <p><b>Shortcut key: PIP/PBP</b></p>	<p>Use this button to choose from a list of <b>PIP/PBP</b>.</p>
<p>7</p>  <p><b>Exit</b></p>	<p>Use this button to go back to the main menu or <b>exit</b> the OSD main menu.</p>

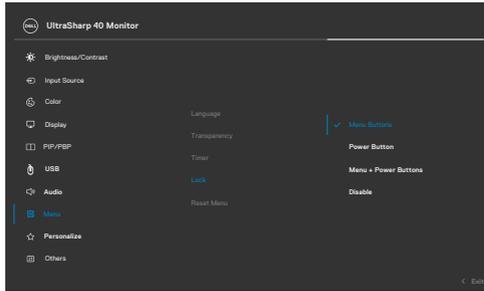

## Using the OSD lock function

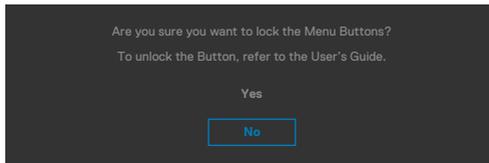

You can lock the front-panel control buttons to prevent access to the OSD menu and/or power button.

### Use the Lock menu to lock the button(s).

1. Select one of the following options.

2. The following message appears.

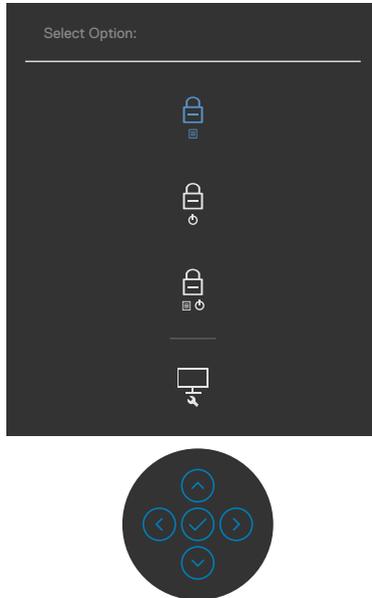

3. Select **Yes** to lock buttons. Once locked, pressing any control button will display the lock icon 

## Use the Joystick to lock the button(s).

Press the left directional navigation of Joystick for four seconds, a menu appears on the screen.

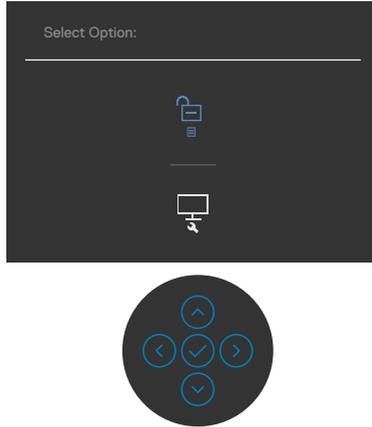

Select one of the following options:

Options	Description
1  <b>Menu Button lock</b>	Select this option to lock OSD menu function.
2  <b>Power Button lock</b>	Use this option to lock power button. This will prevent the user to turn off the monitor using the power button.
3  <b>Menu and Power Button lock</b>	Use this option to lock OSD menu and power button to turn off the monitor.
4  <b>Built-in Diagnostics</b>	Use this option to run the built-in diagnostics, see <a href="#">Built-in Diagnostics</a> .

## To unlock the button(s).

Press the left directional navigation of Joystick for four seconds until a menu appears on the screen. The following table describes the options to unlock the front-panel control buttons.

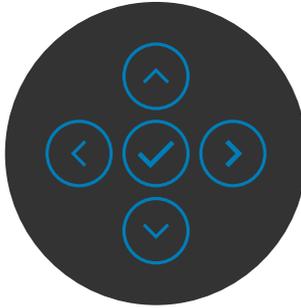

Options	Description
1  <b>Menu Button unlock</b>	Use this option to unlock OSD menu function.
2  <b>Power Button unlock</b>	Use this option to unlock power button to turn off the monitor.
3  <b>Menu and Power Button unlock</b>	Use this option to unlock OSD menu and power button to turn off the monitor.

## Front-panel button

Use the buttons on the front of the monitor to adjust the image settings.

Front Panel Button	Description
1  Up  Down	Use the <b>Up</b> (increase) and <b>Down</b> (decrease) buttons to adjust items in the OSD menu.
2  Previous	Use the <b>Previous</b> button to go back to the previous menu.
3  Next	Use the <b>Next</b> button to confirm your selection.
4  Tick	Use the <b>Tick</b> button to confirm your selection.

# Using the On-Screen Display (OSD) Menu

## Accessing the menu system

Icon	Menu and Submenus	Description
	<b>Brightness/Contrast</b>	Use this menu to activate <b>Brightness/Contrast</b> adjustment.

### Brightness

**Brightness** adjusts the luminance of the backlight (minimum 0; maximum 100).

Move the joystick up to increase brightness.

Move the joystick down to decrease brightness.

### Contrast

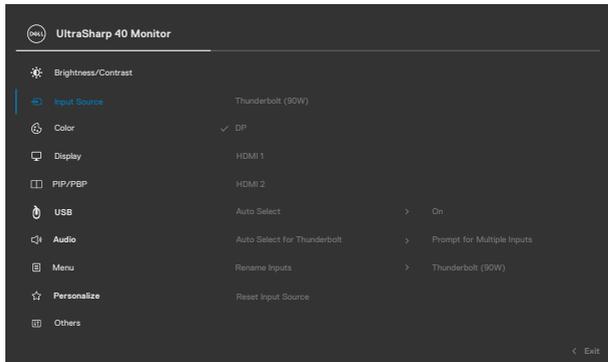

Adjust the **Brightness** first, and then adjust **Contrast** only if further adjustment is necessary.

Move the joystick up to increase contrast and Move the joystick down to decrease contrast (between 0 and 100).

The **Contrast** function adjusts the degree of difference between darkness and lightness on the monitor screen.

Icon	Menu and Submenus	Description
	<b>Input Source</b>	Use the <b>Input Source</b> menu to select between different video inputs that are connected to your monitor.

<b>Thunderbolt™ (90W)</b>	Select <b>Thunderbolt™ (90 W)</b> input when you are using the <b>Thunderbolt™ 3 (90 W)</b> connector. Press the joystick button to confirm the selection.
<b>DP</b>	Select <b>DP (DisplayPort)</b> input when you are using the <b>DP (DisplayPort)</b> connector. Press the joystick button to confirm the selection.
<b>HDMI 1</b>	Select the <b>HDMI 1</b> input when you are using the HDMI connector. Press the joystick button to confirm the selection.
<b>HDMI 2</b>	Select the <b>HDMI 2</b> input when you are using the HDMI connector. Press the joystick button to confirm the selection.
<b>Auto Select</b>	Turn on the function to allow the monitor to automatically scan for available input sources. Press the joystick button to confirm the selection.

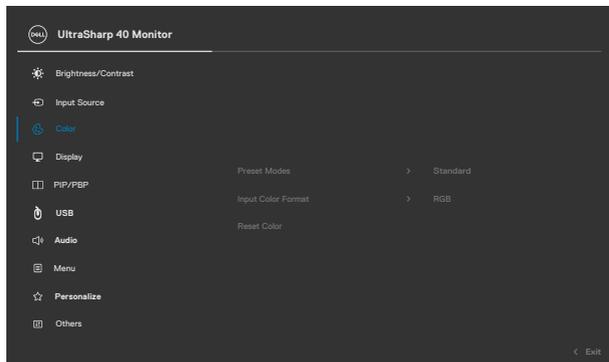

Icon	Menu and Submenus	Description
	<b>Auto Select for Thunderbolt™</b>	Allows you to set Auto Select for Thunderbolt™ to: <ul style="list-style-type: none"> <li>· <b>Prompt for Multiple Inputs:</b> always show Switch to Thunderbolt™ Video Input message for user to choose whether to switch or not.</li> <li>· <b>Yes:</b> The monitor always switch to Thunderbolt™ video without asking while Thunderbolt™ 3 connected.</li> <li>· <b>No:</b> The monitor will NOT auto switch to Thunderbolt™ video from another available input.</li> </ul>
	<b>Rename Inputs</b>	Allows you to Rename Inputs.
	<b>Reset Input Source</b>	Resets all settings under the <b>Input Source</b> menu to the factory defaults.

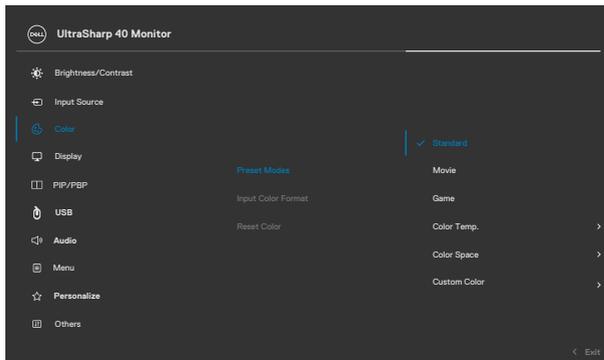

### Color

Use the **Color** menu to adjust the color setting mode.

Icon	Menu and Submenus	Description
	<b>Preset Modes</b>	When you select Preset Modes, you can choose <b>Standard</b> , <b>Movie</b> , <b>Game</b> , <b>Color Temp.</b> , <b>Color Space</b> or <b>Custom Color</b> from the list.

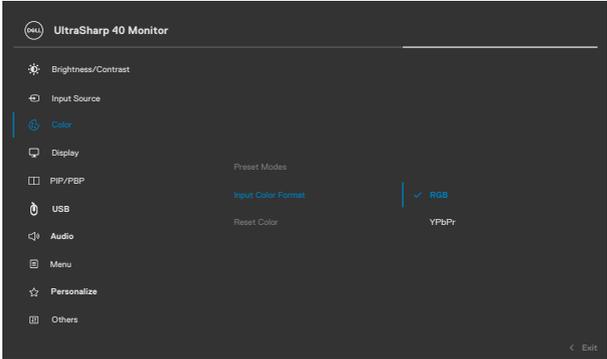

- ◆ **Standard:** Default Color setting, This monitor uses a low blue light panel, and is certified by TUV to reduce blue light output and create a more relaxing and less stimulating image while reading content on the screen.
- ◆ **Movie:** Ideal for movies.
- ◆ **Game:** Ideal for most gaming applications.
- ◆ **Color Temp.:** The screen appears warmer with a red/yellow tint with slider set at 5,000K or cooler with blue tint with slider set at 10,000K.
- ◆ **Color Space:** Allows users to select the color space: sRGB and DCI-P3 , the default setting is sRGB.

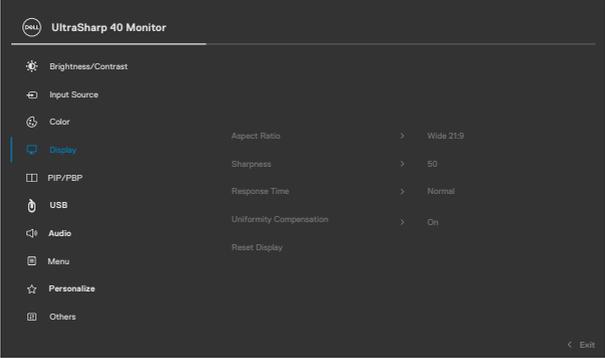

**NOTE:** When you select DCI-P3 as the color space, the luminance of the backlight defaults to 50 cd/m<sup>2</sup> (typical). You can manually adjust the luminance of the backlight by using the Brightness function under Brightness/Contrast in the OSD menu.

- ◆ **Custom Color:** Allows you to manually adjust the color settings. Press the joystick left and right buttons to adjust the Red, Green, and Blue values and create your own preset color mode.

Icon	Menu and Submenus	Description
	<b>Input Color Format</b>	<p>Allows you to set the video input mode to:</p> <ul style="list-style-type: none"> <li>• <b>RGB:</b> Select this option if your monitor is connected to a computer (or DVD player) using the Thunderbolt™, DP, HDMI cable.</li> <li>• <b>YPbPr:</b> Select this option if your DVD player supports only YPbPr output.</li> </ul>
		
		
	<b>Hue</b>	<p>Use joystick up or down to adjust the hue from 0 to 100.  <b>NOTE:</b> Hue adjustment is available only for Movie and Game mode.</p>
	<b>Saturation</b>	<p>Use joystick up or down to adjust the saturation from 0 to 100.  <b>NOTE:</b> Saturation adjustment is available only for Movie and Game mode.</p>
	<b>Reset Color</b>	<p>Resets your monitor's color settings to the factory defaults.</p>

Icon	Menu and Submenus	Description
	Display	Use the Display menu to adjust image.
		
		
<b>Aspect Ratio</b>	Adjust the image ratio to <b>Wide 21:9, Auto Resize, 4:3</b> and <b>Pixel-for-Pixel</b> .	
<b>Sharpness</b>	<p>Makes the image look sharper or softer.</p> <p>Move the joystick up and down to adjust the sharpness from '0' to '100'.</p>	
<b>Response Time</b>	Allows you to set the <b>Response Time</b> to <b>Normal</b> or <b>Fast</b> .	
<b>Uniformity Compensation</b>	<p>Select screen uniformity compensation settings. Uniformity Compensation adjusts different areas of the screen with respect to the center to achieve uniform brightness and color over the entire screen. For optimal screen performance, <b>Brightness and Contrast</b> for some preset modes (<b>Standard, Color Temp.</b>) will be disabled when Uniformity Compensation is turned On.</p> <p><b>NOTE:</b> User is advised to use factory default brightness setting when <b>Uniformity Compensation</b> is turned on. For other brightness level setting, the uniformity performance may deviate from the data shown on the Factory Calibration Report.</p>	
<b>Reset Display</b>	Resets all settings under the <b>Display</b> menu to the factory defaults.	

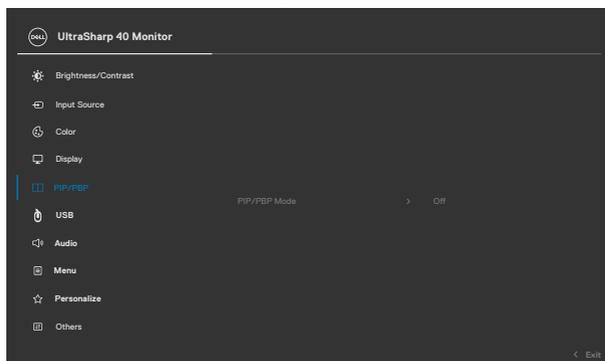

Icon	Menu and Submenus	Description
------	-------------------	-------------

**PIP/PBP**

You can watch more images at the same time.

Main-Window	Sub-window			
	Thunderbolt™ (90W)	DP	HDMI 1	HDMI 2
Thunderbolt™ (90W)	x	√	√	√
DP	√	x	√	√
HDMI 1	√	√	x	√
HDMI 2	√	√	√	x

**PIP/PBP Mode** Adjusts the PIP or PBP (Picture by Picture) mode. You can disable this feature by selecting Off.

**PIP/PBP (Sub)** Select between the different video signals that may be connected to your monitor for the PIP/PBP sub-window.

**USB Switch** Select to switch between the USB upstream sources in PBP mode.

**Video Swap** Swap Main & Sub video.

**Contrast (Sub)** Change Contrast settings of Sub video.

---

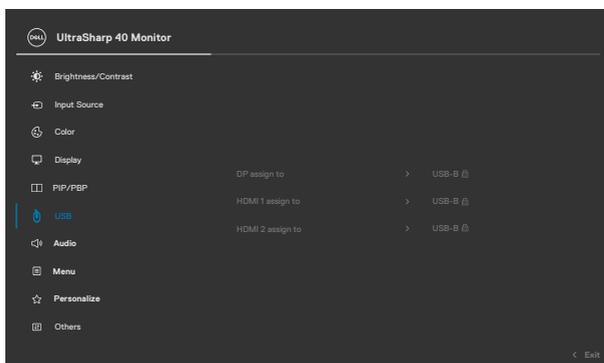

Icon	Menu and Submenus	Description
------	-------------------	-------------

---

## USB

You can watch more images at the same time.

---

## DP assign to

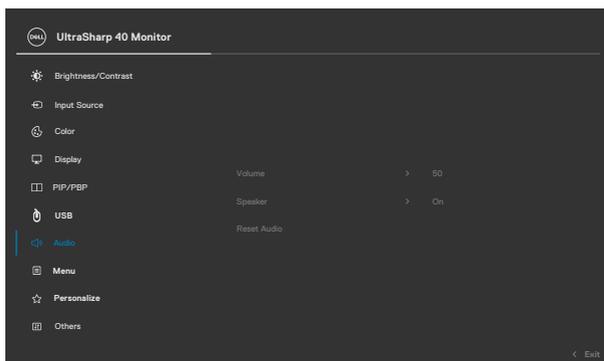

## HDMI 1 assign to

## HDMI 2 assign to

Assign to USB-B or Thunderbolt™ (90 W).

## Audio

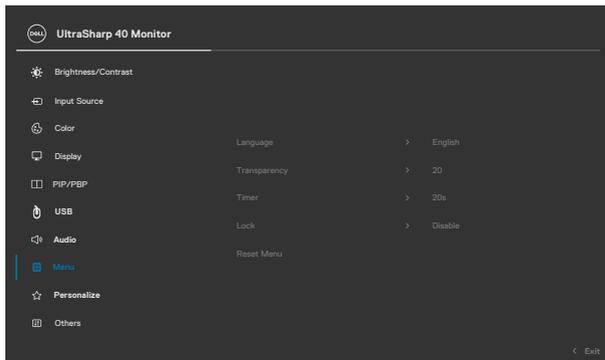

Icon	Menu and Submenus	Description
	<b>Volume</b>	Allows you to set the volume level of headphone output. Use the joystick to adjust the volume level from 0 to 100.
	<b>Speaker</b>	Select <b>On</b> or <b>Off</b> the Speaker function.
	<b>Reset Audio</b>	Resets all settings under the <b>Audio</b> menu to the factory defaults.

**Menu**

Select this option to adjust the settings of the OSD, such as the languages of the OSD, the amount of time the menu remains on screen, and so on.

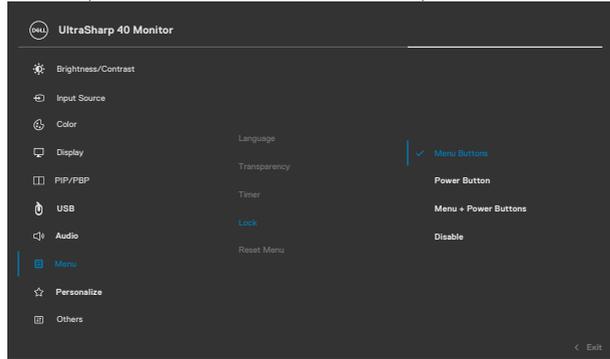

<b>Language</b>	Set the OSD display to one of eight languages. (English, Spanish, French, German, Brazilian Portuguese, Russian, Simplified Chinese, or Japanese).
<b>Transparency</b>	Select this option to change the menu transparency by moving the joystick up or down (min. 0/max. 100).
<b>Timer</b>	<b>OSD Hold Time:</b> Sets the length of time the OSD remains active after you press a button. Move the joystick to adjust the slider in 1-second increments, from 5 to 60 seconds.

Icon	Menu and Submenus	Description
------	-------------------	-------------

**Lock**

With the control buttons on the monitor locked, you can prevent people from accessing the controls. It also prevents accidental activation in multiple monitors side-by-side setup.

- ◆ **Menu Buttons:** Through OSD to lock the Menu buttons.
- ◆ **Power Button:** Through OSD to lock the Power button.
- ◆ **Menu + Power Buttons:** Through OSD to lock the all of Menu and Power buttons.
- ◆ **Disable:** Move the Joystick left and hold for 4 sec.

**Reset Menu**

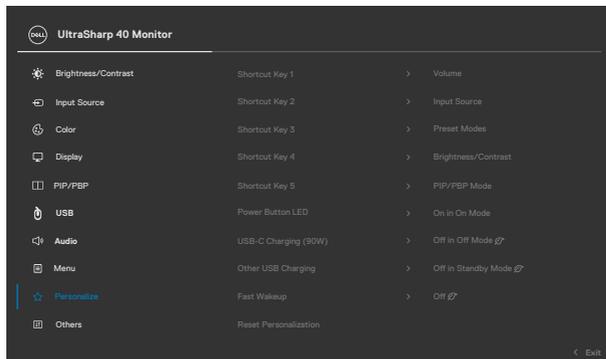

Resets all settings under the **Reset** menu to the factory defaults.

## Personalize

### Shortcut key 1

**Shortcut key 2** Select from **Preset Modes, Brightness/Contrast, Input Source, Aspect Ratio, PIP/PBP Mode, USB Switch, Video Swap, Volume, Display Info** set as shortcut key.

### Shortcut key 3

### Shortcut key 4

### Shortcut key 5

**Power Button LED** Allows you to set the state of the power light to save energy.

**USB-C Charging (90 W)** Allows you to enable or disable **USB-C Charging (90 W)** charging function during monitor power off mode.

**Other USB Charging** Allows you to enable or disable **Other USB Charging** function during monitor Standby mode.

**Fast Wakeup** Speed up recovery time from sleep mode.

**Reset Personalization** Resets all settings under the **Personalize** menu to the factory preset values.

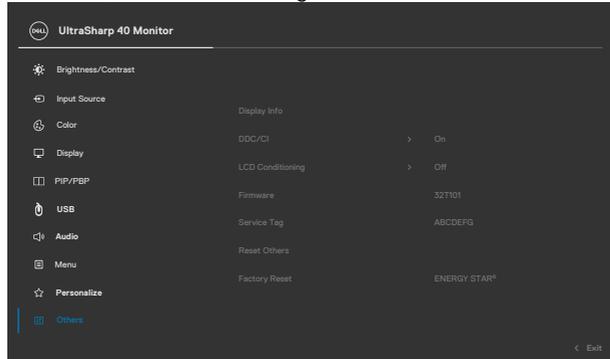

**Icon**   **Menu and Submenus**

**Description**

**Others**

Select this option to adjust the OSD settings such as the **DDC/CI**, **LCD** conditioning, and so on.

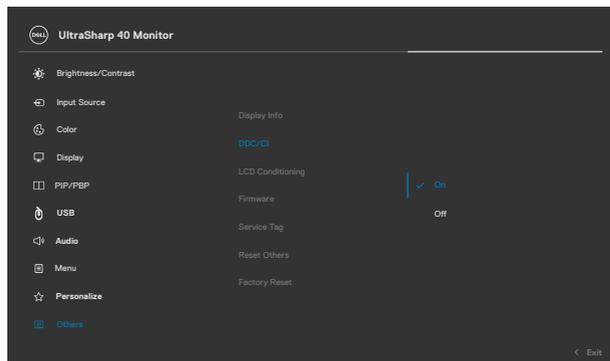

**Display Info**

Displays the monitor's current settings.

**DDC/CI**

**DDC/CI** (Display Data Channel/Command Interface) allows your monitor parameters (brightness, color balance, and etc.) to be adjustable via the software on your computer. You can disable this feature by selecting **Off**. Enable this feature for best user experience and optimum performance of your monitor.

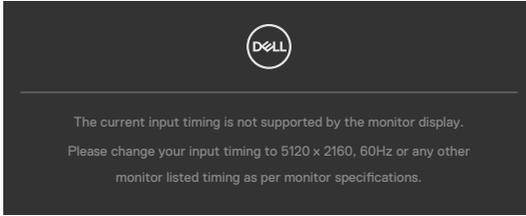

Icon	Menu and Submenus	Description
	<b>LCD Conditioning</b>	Helps reduce minor cases of image retention. Depending on the degree of image retention, the program may take some time to run. You can enable this feature by selecting <b>On</b> .
		
<b>Firmware</b>	<b>Service Tag</b>	Displays the firmware version of your monitor. Displays the Service Tag. The Service Tag is a unique alphanumeric identifier that allows Dell to identify the product specifications and access warranty information. <b>NOTE:</b> The Service Tag is also printed on a label located at the back of the cover.
<b>Reset Others</b>	<b>Factory Reset</b>	Resets all settings under the <b>Others</b> menu to the factory defaults. Restores all preset values to the factory default settings. These are also the settings for <b>ENERGY STAR®</b> tests.

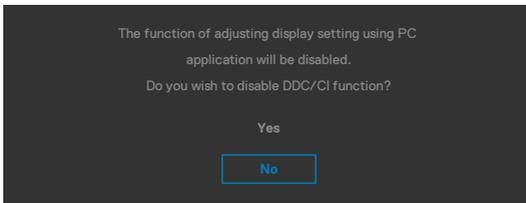

## OSD warning messages

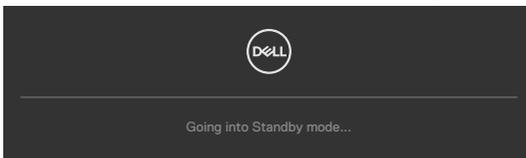

When the monitor does not support a particular resolution mode, you can see the following message:

This means that the monitor cannot synchronize with the signal that it is receiving from the computer. See [Monitor Specifications](#) for the Horizontal and Vertical frequency ranges addressable by this monitor. Recommended mode is 5120 x 2160. You can see the following message before the DDC/CI function is disabled:

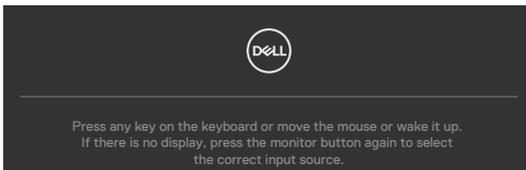

When the monitor enters the **Standby** mode, the following message will appear:

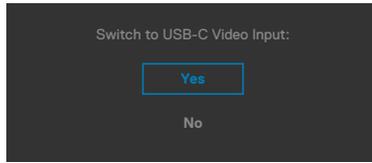

Activate the computer and wake up the monitor to gain access to the **OSD**.

If you press any button other than the power button, the following messages will appear depending on the selected input:

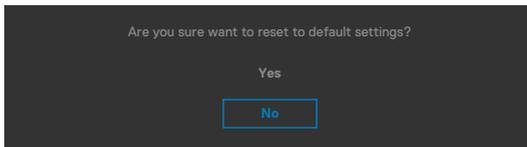

A message is displayed while the cable supporting DP alternate mode is connected to the monitor under the following conditions:

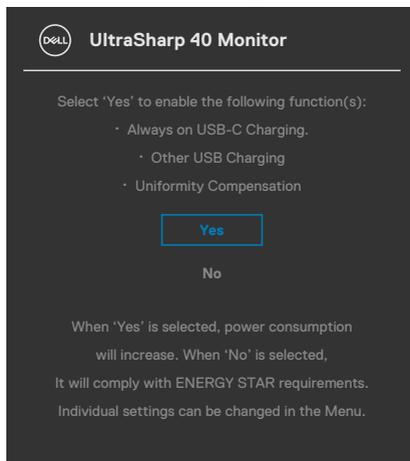

- When **Auto Select for Thunderbolt** is set to **Prompt for Multiple Inputs**.
- When the DP cable is connected to the monitor.

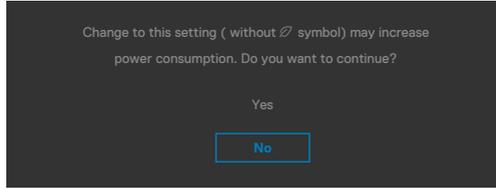

Select OSD items of **Factory Reset** in Other feature, the following message will appear:

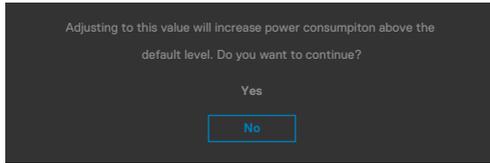

When you select '**Yes**' to reset to default settings, the following message will appear:

Select OSD items of **On in Standby Mode** in Personalize feature, the following message will appear:

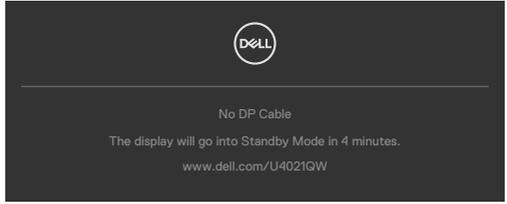

If adjust the Brightness level above the default level over 75%, the following message will appear:

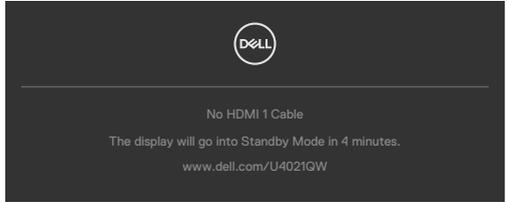

- When user selects “Yes”, the power message is displayed only once.
- When user select ‘No’, the power warning message will pop-up again.
- The power warning message will appear again only when the user does a Factory Reset from the OSD menu.

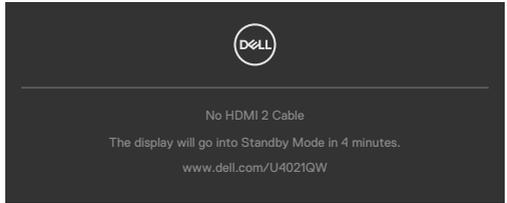

If either Thunderbolt™ (90 W), DP, HDMI input is selected and the corresponding cable is not connected, a floating dialog box as shown below appears.

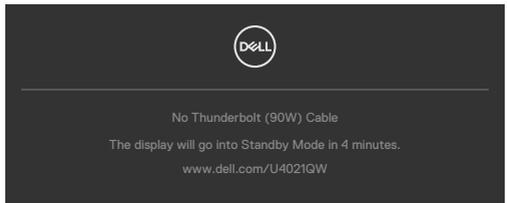

or

or

or

See [Troubleshooting](#) for more information.

## Setting the maximum resolution

To set the maximum resolution for the monitor:

In Windows 7, Windows 8 or Windows 8.1:

1. For Windows 8 or Windows 8.1 only, select the Desktop tile to switch to classic desktop. For Windows Vista and Windows 7, skip this step.
2. Right-click on the desktop and click **Screen Resolution**.
3. Click the Dropdown list of the **Screen Resolution** and select **5120 x 2160**.
4. Click **OK**.

In Windows 10:

1. Right-click on the desktop and click **Display Settings**.
2. Click **Advanced display settings**.
3. Click the dropdown list of **Resolution** and select **5120 x 2160**.
4. Click **Apply**.

If you do not see **5120 x 2160**

as an option, you may need to update your graphics driver. Depending on your computer, complete one of the following procedures:

If you have a Dell desktop or portable computer:

- Go to <http://www.dell.com/support>, enter your service tag, and download the latest driver for your graphics card.

If you are using a non-Dell computer (laptop or desktop):

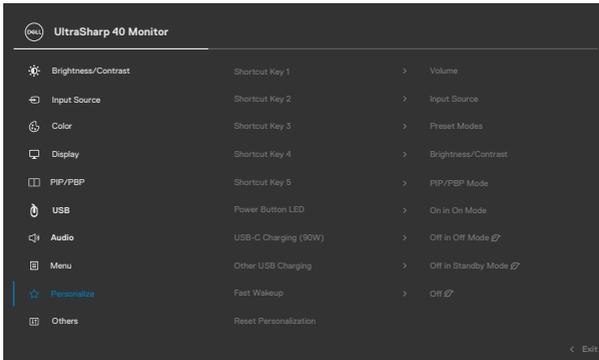

- Go to your computer manufacturer's support website and download the latest graphic drivers.
- Go to your graphics card manufacturer's website and download the latest graphic drivers.

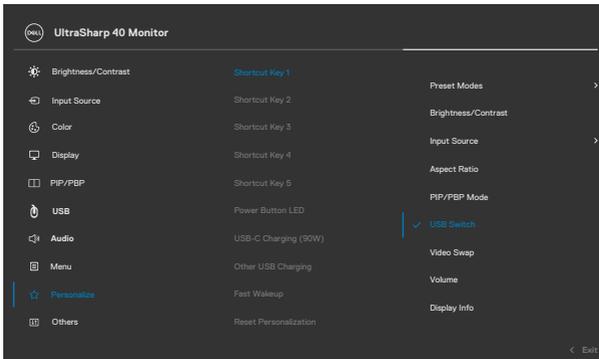

## Setting the KVM USB Switch

To set the KVM USB Switch as Shortcut Key for the monitor:

1. Press the joystick button to launch the OSD main menu.
2. Move the joystick to select **Personalize**.

3. Move the joystick right to activate the highlighted option.
4. Move the joystick right to activate the **Shortcut Key 1** option.
5. Move the joystick up or down to select **USB Select Switch**.

6. Press the joystick to confirm selection.

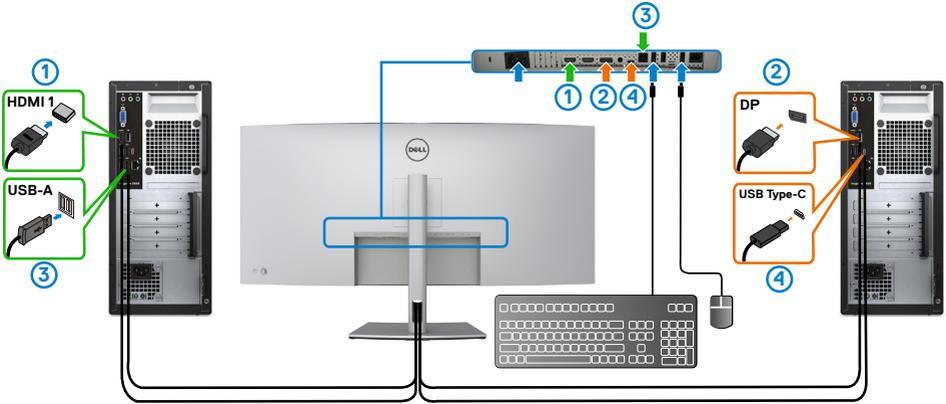

**NOTE: KVM USB Switch function only work under PBP Mode.**

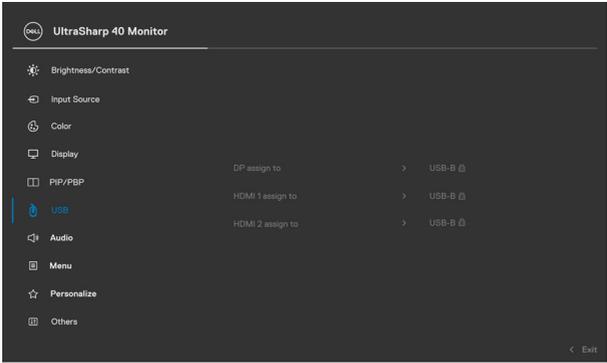

The following are illustrations of several connection scenarios and their USB Selection menu settings, as illustrated in corresponding color frames.

1. When connecting **HDMI 1 + USB-B** to computer 1 and **DP + Thunderbolt™ (90W)** to computer 2:

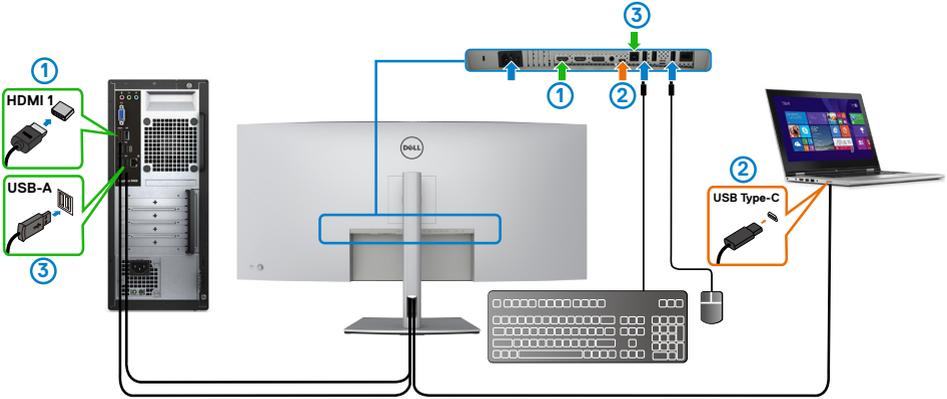

**NOTE:** The Thunderbolt™ (90 W) connection currently supports only data transfer.

Ensure USB Selection for **HDMI 1** is set to **USB-B** and DP is set to **Thunderbolt™ (90 W)**.

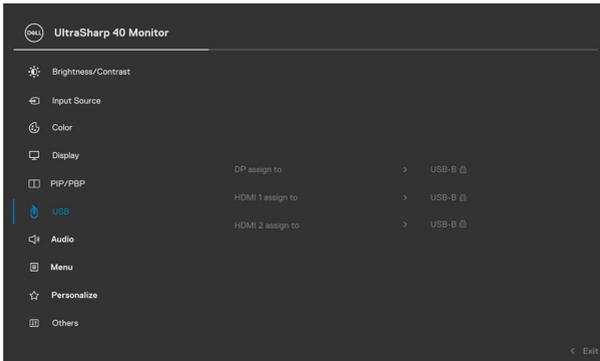

2. When connecting **HDMI 1 + USB-B** to computer 1 and **Thunderbolt™ (90 W)** to computer 2.

**NOTE: The Thunderbolt™ (90 W) connection currently supports video and data transfer.**

Ensure USB Selection for **HDMI 1** is set to **USB-B**.

**NOTE: As the Thunderbolt™ 3 (90 W) port supports the DisplayPort Alternate Mode, there is no need to set USB Selection for Thunderbolt™ (90W).**

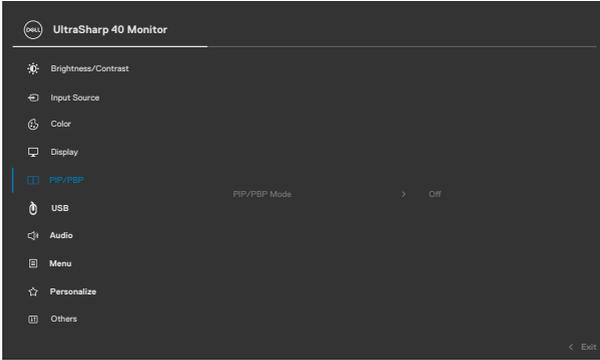

**NOTE: When connecting to different video input sources not shown above, follow the same method to make correct settings for USB Selection to pair the ports.**

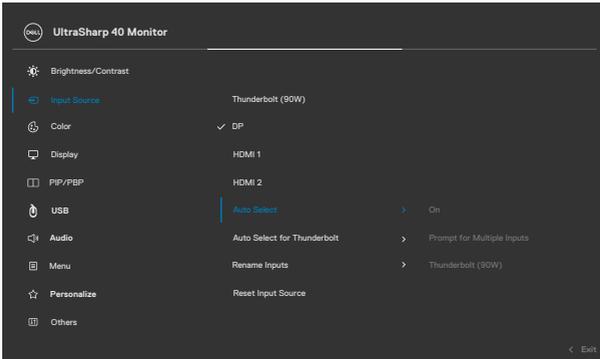

## Setting the Auto KVM

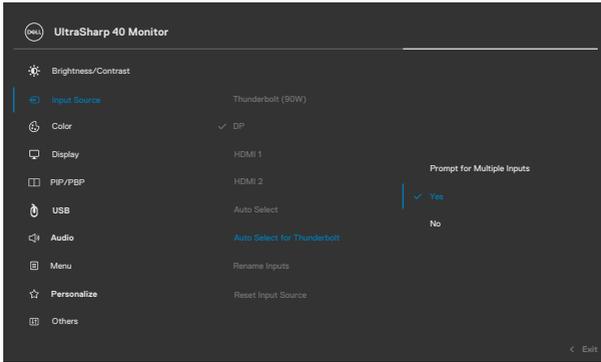

You can follow below instruction to set up Auto KVM for your monitor:

1. Ensure that **PBP Mode** is **Off**.

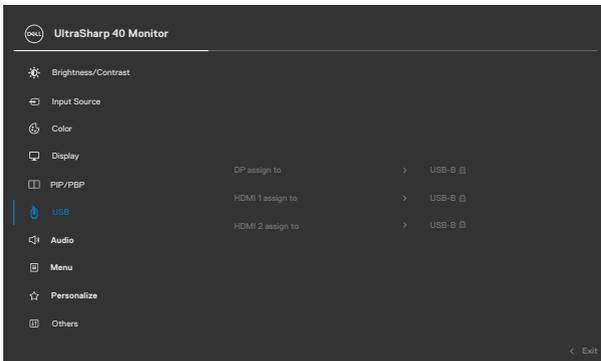

2. Ensure that **Auto Select** is **On** and **Auto Select for Thunderbolt™** is **Yes**.

3. Ensure that the USB ports and the video inputs are paired accordingly.

**NOTE:** For Thunderbolt™ (90 W) connection, there is no further setting required.

# Troubleshooting

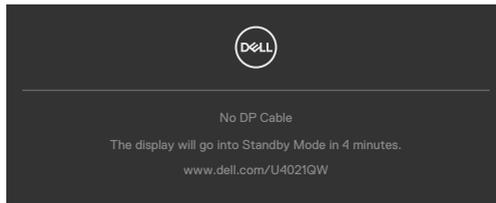

**⚠ WARNING:** Before you begin any of the procedures in this section, follow the [Safety Instructions](#).

## Self-test

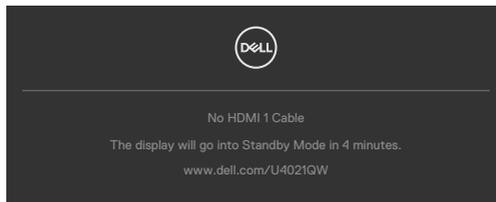

Your monitor provides a self-test feature that allows you to check whether your monitor is functioning properly. If your monitor and computer are properly connected but the monitor screen remains dark, run the monitor self-test by performing the following steps:

1. Turn off both your computer and the monitor.
2. Unplug the video cable from the back of the computer. To ensure proper Self-Test operation, remove all digital and the analog cables from the back of computer.
3. Turn on the monitor.

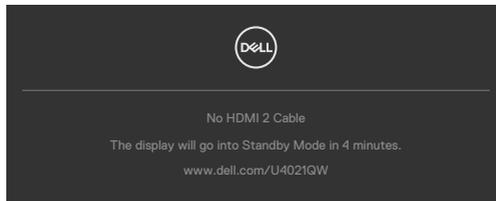

The floating dialog box should appear on-screen (against a black background), if the monitor cannot sense a video signal and is working correctly. While in self-test mode, the power LED remains white. Also, depending upon the selected input, one of the dialogs shown below will continuously scroll through the screen.

or

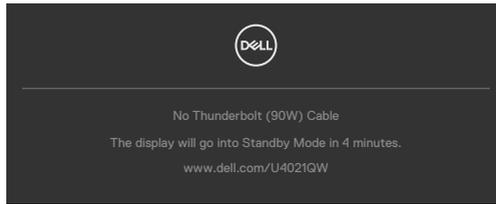

or

or

4. This box also appears during normal system operation if the video cable becomes disconnected or damaged.
5. Turn off your monitor and reconnect the video cable; then turn on both your computer and the monitor.

If your monitor screen remains blank after you use the previous procedure, check your video controller and computer, because your monitor is functioning properly.

## Built-in diagnostics

Your monitor has a built-in diagnostic tool that helps you determine if the screen abnormality you are experiencing is an inherent problem with your monitor, or with your computer and video card.

### To run the built-in diagnostics:

1. Ensure that the screen is clean (no dust particles on the surface of the screen).
2. Press and hold Up or Down or Left or Right direction for four seconds until a menu appears on the screen.
3. Using the joystick control, highlight the Diagnostics  option and press the joystick button to start the diagnostics. A gray screen is displayed.
4. Observe if the screen has any defects or abnormalities.
5. Toggle the joystick once again until a red screen is displayed.
6. Observe if the screen has any defects or abnormalities.
7. Repeat steps 5 and 6 until the screen displays green, blue, black, and white colors. Note any abnormalities or defects.

The test is complete when a text screen is displayed. To exit, toggle the joystick control again.

If you do not detect any screen abnormalities upon using the built-in diagnostic tool, the monitor is functioning properly. Check the video card and computer.

# Common Problems

The following table contains general information about common monitor problems you might encounter and the possible solutions:

Common Symptoms	What You Experience	Possible Solutions
No Video/ Power LED off	No picture	<ul style="list-style-type: none"><li>· Ensure that the video cable connecting the monitor and the computer is properly connected and secure.</li><li>· Verify that the power outlet is functioning properly using any other electrical equipment.</li><li>· Ensure that the power button is depressed fully.</li><li>· Ensure that the correct input source is selected in the <b>Input Source</b> menu.</li></ul>
No Video/ Power LED on	No picture or no brightness	<ul style="list-style-type: none"><li>· Increase brightness and contrast controls via OSD.</li><li>· Perform monitor self-test feature check.</li><li>· Check for bent or broken pins in the video cable connector.</li><li>· Run the built-in diagnostics.</li><li>· Ensure that the correct input source is selected in the <b>Input Source</b> menu.</li></ul>
Missing Pixels	LCD screen has spots	<ul style="list-style-type: none"><li>· Cycle power on-off.</li><li>· Pixel that is permanently off is a natural defect that can occur in LCD technology.</li><li>· For more information on Dell Monitor Quality and Pixel Policy, see Dell Support site at: <a href="http://www.dell.com/pixelguidelines">www.dell.com/pixelguidelines</a>.</li></ul>
Stuck-on Pixels	LCD screen has bright spots	<ul style="list-style-type: none"><li>· Cycle power On-Off.</li><li>· Pixel that is permanently off is a natural defect that can occur in LCD technology.</li><li>· For more information on Dell Monitor Quality and PixelPolicy, see Dell Support site at: <a href="http://www.dell.com/pixelguidelines">www.dell.com/pixelguidelines</a>.</li></ul>
Brightness Problems	Picture too dim or too bright	<ul style="list-style-type: none"><li>· Reset the monitor to factory settings.</li><li>· Adjust brightness and contrast controls via OSD.</li></ul>
Safety Related Issues	Visible signs of smoke or sparks	<ul style="list-style-type: none"><li>· Do not perform any troubleshooting steps.</li><li>· Contact Dell immediately.</li></ul>

<b>Common Symptoms</b>	<b>What You Experience</b>	<b>Possible Solutions</b>
Intermittent Problems	Monitor malfunctions on & off	<ul style="list-style-type: none"> <li>• Ensure that the video cable connecting the monitor to the computer is connected properly and is secure.</li> <li>• Reset the monitor to factory settings.</li> <li>• Perform monitor self-test feature check to determine if the intermittent problem occurs in self-test mode.</li> </ul>
Missing Color	Picture missing color	<ul style="list-style-type: none"> <li>• Perform monitor self-test.</li> <li>• Ensure that the video cable connecting the monitor to the computer is connected properly and is secure.</li> <li>• Check for bent or broken pins in the video cable connector.</li> </ul>
Wrong Color	Picture color not good	<ul style="list-style-type: none"> <li>• Change the settings of the Preset Modes in the Color menu OSD depending on the application.</li> <li>• Adjust R/G/B value under Custom Color in Color menu OSD.</li> <li>• Change the Input Color Format to PC RGB or YPbPr in the Color menu OSD.</li> <li>• Run the built-in diagnostics.</li> </ul>
Image retention from a static image left on the monitor for a long period of time	Faint shadow from the static image displayed appears on the screen	<ul style="list-style-type: none"> <li>• Set the screen to turn off after a few minutes of screen idle time. These can be adjusted in Windows Power Options or Mac Energy Saver setting.</li> <li>• Alternatively, use a dynamically changing screensaver.</li> </ul>

# Product specific problems

 **NOTE: Thunderbolt™ is not supported Windows 7.**

<b>Problem</b>	<b>What you experience</b>	<b>Possible solutions</b>
Screen image is too small	Image is centered on screen, but does not fill entire viewing area	<ul style="list-style-type: none"><li>· Check the Aspect Ratio setting in the Display menu OSD.</li><li>· Reset the monitor to factory settings.</li></ul>
Cannot adjust the monitor with the buttons on the front panel	OSD does not appear on the screen	<ul style="list-style-type: none"><li>· Turn off the monitor, unplug the monitor power cable, plug it back, and then turn on the monitor.</li></ul>
No Input Signal when user controls are pressed	No picture, the LED light is white	<ul style="list-style-type: none"><li>· Check the signal source. Ensure the computer is not in the power saving mode by moving the mouse or pressing any key on the keyboard.</li><li>· Check whether the signal cable is plugged in properly. Connect the signal cable again, if necessary.</li><li>· Reset the computer or video player.</li></ul>
The picture does not fill the entire screen	The picture cannot fill the height or width of the screen	<ul style="list-style-type: none"><li>· Due to different video formats (aspect ratio) of DVDs, the monitor may display in full screen.</li><li>· Run the built-in diagnostics.</li></ul>
No Video or display on HDMI port	No video when connecting docking, dongle or Blu-ray DVD players	<ul style="list-style-type: none"><li>· Due to legacy platform cannot recognize or output 5120 x 2160, we suggest to switch to lower resolution to cover this compatibility problem:<ol style="list-style-type: none"><li>1. Remove all input cables, press and hold Up or Down or Left or Right direction for 4 seconds . (Please refer to <a href="#">Built-in Diagnostics</a> for button numbers)</li><li>2. Choose “Enable” on POP up screen to change max resolution from 5120 x 2160 to 3840 x 2160.</li></ol></li></ul>

<b>Problem</b>	<b>What you experience</b>	<b>Possible solutions</b>
Monitor displayed image at 2560 x 1080 @ 60Hz	Displayed image not at 5120 x 2160 @ 30Hz/60Hz due to duplicate mode	<ul style="list-style-type: none"> <li>· Press “Windows” + “P” key, select either “Extend Mode” or “second screen only”.</li> <li>· Goto Display setting, select 5120x2160.</li> </ul>
Monitor displayed image not at 5120x2160	Displayed image not at 5120 x 2160 when connected to docking device	<ul style="list-style-type: none"> <li>· To support 5120x2160, check whether docking device meet either one of the following:               <ol style="list-style-type: none"> <li><b>1.</b> DP1.2 or higher</li> <li><b>2.</b> Type-C Alt Mode DP1.2 or higher</li> <li><b>3.</b> HDMI 2.0</li> </ol> </li> </ul>
Black screen on Chrome OS @ HDMI port	Black screen after switch on PBP mode 80/20	<ul style="list-style-type: none"> <li>· Graphic Card Driver not able to support resolution 4096 x 2160.</li> <li>· Switch to PBP 75/25 or 50/50</li> </ul>
No Display or USB not working	No Display or USB not working on Windows 7	<ul style="list-style-type: none"> <li>· Windows 7 not support. Switch to Windows 10.</li> </ul>
Enter BIOS setup menu @ HDMI port	Unable to goto BIOS setup menu	<ul style="list-style-type: none"> <li>· unplug the HDMI cable or disconnect the monitor</li> </ul>
Black screen on PBP mode @ HDMI	Switch to PBP 80/20 mode no displayed image @ HDMI when connected to Docking device	<ul style="list-style-type: none"> <li>· Some docking device do not support 80/20 (4096 x 2160) resolution.</li> <li>· Switch PBP mode to 75/25 or 50/50</li> <li>· Plug/unplug HDMI cable</li> <li>· Change input source to DP port</li> </ul>
Display image at 5120 x 2160 @ 30 Hz at HDMI port	Not able to select 5120 x 2160 @ 60 Hz in Graphic Control Panel at HDMI Port	<ul style="list-style-type: none"> <li>· Due to legacy platform HDMI 2.0 HW bandwidth limitation, it can only support 5120 x 2160 @ 30 Hz.</li> <li>· Switch to DP 1.2 or higher</li> </ul>

<b>Problem</b>	<b>What you experience</b>	<b>Possible solutions</b>
Monitor displayed image at 3840 x 2160 @ 60 Hz	Not able to select 5120 x 2160 in Graphic Control Panel	<ul style="list-style-type: none"> <li>· Due to legacy platform HW limitation, it does not support 5120 x 2160.</li> <li>· To support 5120 x 2160 @ 60 Hz, check whether the platform meet either one of the following: <ol style="list-style-type: none"> <li><b>1.</b> DP1.2 or higher.</li> <li><b>2.</b> Type-C Alt Mode DP1.2 or higher.</li> <li><b>3.</b> HDMI 2.0.</li> </ol> </li> </ul>
Monitor displays image at 3840 x 2160 @ 60 Hz when using Intel Graphic Card	Not able to select 5120 x 2160 @ 60 Hz with: Intel CPU Gen10 or lower, and Intel Graphic Driver x.7584 onward.	<ul style="list-style-type: none"> <li>· Intel Graphic Driver has disabled 5K Mode Support from V7584 to 7916.</li> <li>· Install/Re-install Intel Graphic driver after v.7925 or higher.</li> </ul>
Monitor display image at 5120 x 2160 @ 30Hz when connected to Intel Graphic Card via TBT port	Not able to select 5120 x 2160 @ 60 Hz	<ul style="list-style-type: none"> <li>· Due to legacy Intel CPU bandwidth limitation.</li> <li>· Inte CPU 10th (Ice Lake) or Gen 11th (Tiger Lake) or later CPU (DP 1.4) can support 5120 x 2160 @ 60 Hz.</li> </ul>
No image when using Thunderbolt™ 3 connection to computer, laptop, and so on	Black screen	<ul style="list-style-type: none"> <li>· Verify if the Thunderbolt™ interface of the device can support DP alternate mode.</li> <li>· Verify if the device required more than 90 W power charging.</li> <li>· Thunderbolt™ interface of device cannot support DP alternate mode.</li> <li>· Set Windows to Projection mode.</li> <li>· Ensure that the Thunderbolt™ 4 (USB Type-C) active cable is not damaged.</li> </ul>

<b>Problem</b>	<b>What you experience</b>	<b>Possible solutions</b>
No charging when using Thunderbolt™ 3 connection to computer, laptop, and so on	No charging	<ul style="list-style-type: none"> <li>· Verify if the device can support one of 5 V/9 V/15 V/20 V charging profiles.</li> <li>· Verify if the Notebook requires a &gt;90 W power adaptor.</li> <li>· If the Notebook requires a &gt;90 W power adaptor, it may not charge with the Thunderbolt™ 3 connection.</li> <li>· Ensure that you use only Dell approved adapter or the adapter that comes with the product.</li> <li>· Ensure that the Thunderbolt™ 4 (USB Type-C) active cable is not damaged.</li> </ul>
Intermittent charging when using Thunderbolt™ 3 connection to computer, laptop, and so on	Intermittent charging	<ul style="list-style-type: none"> <li>· Check if the maximum power consumption of device is over 90 W.</li> <li>· Ensure that you use only Dell approved adapter or the adapter that comes with the product.</li> <li>· Ensure that the Thunderbolt™ 4 (USB Type-C) active cable is not damaged.</li> </ul>
No image when using Thunderbolt™ connection to the PC	Black screen	<ul style="list-style-type: none"> <li>· Verify which Thunderbolt™ standard (DP 1.2 or DP 1.4) is your Graphics Card certified to. Download and install the latest graphics card driver.</li> <li>· Some DP 1.2 graphics card cannot support DP 1.4 monitors. Go to OSD menu, under Input Source selection, press and hold Thunderbolt™ select  key for 8 sec to change the monitor setting from DP 1.4 to DP 1.2.</li> </ul>
No network connection	Network dropped or Intermittent	<ul style="list-style-type: none"> <li>· Do not toggle Off/On the power button when network is connected, keeps the power button On.</li> </ul>

<b>Problem</b>	<b>What you experience</b>	<b>Possible solutions</b>
The LAN port is not functioning	OS setting or cable connection issue	<ul style="list-style-type: none"> <li>• Ensure that the latest BIOS and drivers for your computer are installed on your computer.</li> <li>• Ensure that the RealTek Gigabit Ethernet Controller is installed in the Windows Device Manager.</li> <li>• If your BIOS Setup has a LAN/GBE Enabled/ Disabled option, make sure it is set to Enabled.</li> <li>• Ensure that the Ethernet cable is connected securely on the monitor and the hub/router/ firewall.</li> <li>• Check the status LED of the Ethernet cable to confirm connectivity. Re-connect both ends of the Ethernet cable if the LED is not lit.</li> <li>• First power off the Computer and unplug the Thunderbolt™ 4 (USB Type-C) active cable and power cord of the monitor. Then, power on the computer, plug in the monitor power cord and Thunderbolt™ 4 (USB Type-C) active cable.</li> </ul>

## Universal Serial Bus (USB) specific problems

<b>Specific Symptoms</b>	<b>What You Experience</b>	<b>Possible Solutions</b>
USB interface is not working	USB peripherals are not working	<ul style="list-style-type: none"> <li>• Check that your display is turned ON.</li> <li>• Ensure USB Selection is set correctly in the <b>USB</b> menu.</li> <li>• Reconnect the upstream cable to your computer.</li> <li>• Reconnect the USB peripherals (downstream connector).</li> <li>• Turn off the monitor and turn it on again.</li> <li>• Reboot the computer.</li> <li>• Some USB devices like external portable HDD require higher electric current; connect the device directly to the computer system.</li> <li>• Certain USB devices such as portable hard drives require higher power source; connect the drive to the computer directly.</li> <li>• Disconnect one upstream USB cable when using two upstream connections.</li> </ul>

<b>Specific Symptoms</b>	<b>What You Experience</b>	<b>Possible Solutions</b>
USB Type-C port does not supply power	USB peripherals can not be charged	<ul style="list-style-type: none"> <li>· Check that the connected device is compliant with the USB-C specification. The USB Type-C port supports USB 2.0 and an output of 90 W.</li> <li>· Check that you use the USB Type-C cable shipped with your monitor.</li> </ul>
Super Speed USB 3.2 Gen2 interface is slow.	Super Speed USB 3.2 Gen2 peripherals working slowly or not working at all	<ul style="list-style-type: none"> <li>· Check that your computer is USB 3.0-capable.</li> <li>· Some computers have USB 3.0, USB 2.0, and USB 1.1 ports. Ensure that the correct USB port is used.</li> <li>· Reconnect the upstream cable to your computer.</li> <li>· Reconnect the USB peripherals (downstream connector).</li> <li>· Reboot the computer.</li> </ul>
Wireless USB peripherals stop working when a USB 3.0 device is plugged in	Wireless USB peripherals responding slowly or only working as the distance between itself and its receiver decreases	<ul style="list-style-type: none"> <li>· Increase the distance between the USB 3.0 peripherals and the wireless USB receiver.</li> <li>· Position your wireless USB receiver as close as possible to the wireless USB peripherals.</li> <li>· Use a USB-extender cable to position the wireless USB receiver as far away as possible from the USB 3.0 port.</li> </ul>
USB is not working	No USB functionalities	Refer to input source and USB pairing table.

## FCC notices (U.S. only) and other regulatory information

For FCC notices and other regulatory information, see the regulatory compliance website located at [www.dell.com/regulatory\\_compliance](http://www.dell.com/regulatory_compliance).

## Contacting Dell

For customers in the United States, call 800-WWW-DELL (800-999-3355).

 **NOTE: If you do not have an active Internet connection, you can find contact information on your purchase invoice, packing slip, bill, or Dell product catalog.**

Dell provides several online and telephone-based support and service options. Availability varies by country and product, and some services may not be available in your area.

### To get online Monitor support content:

See [www.dell.com/support/monitors](http://www.dell.com/support/monitors).

### To contact Dell for sales, technical support, or customer service issues:

1. Go to [www.dell.com/support](http://www.dell.com/support).
2. Verify your country or region in the Choose A Country/Region drop-down menu at the bottom-right corner of the page.
3. Click Contact Us next to the country dropdown.
4. Select the appropriate service or support link based on your need.
5. Choose the method of contacting Dell that is convenient for you.
